University Microfilms'

DISSERTATION ABSTRACTS

an up-to-date catalog of doctoral dissertations

For many years, the great wealth of useful knowledge recorded in doctoral dissertations was almost inaccessible to academic and commercial specialists. Thousands of dissertations were carefully prepared, submitted, published and then lost in a wide scattering of libraries and repositories around the world.

Since 1938, this storehouse of valuable, useful thought has been indexed and published as abstracts in **Dissertation Abstracts** by University Microfilms.

Each month **Dissertation Abstracts** is printed in two sections, one covering dissertations in the Humanities and Social Sciences, the second covering the Physical Sciences and Engineering. Either or both sections may be purchased on a subscription basis.

Dissertation Abstracts is the most nearly complete, clearly descriptive, and current listing of the more than 12,000 doctoral dissertations written yearly at more than 190 colleges and universities granting doctoral degrees.

It will, in a short time, prove to be one of the most useful reference sources in your library.

DISSERTATION ABSTRACTS is published in two separate sections: Section A: The Humanities and Social Sciences; Section B: The Physical Sciences and Engineering.

Section A includes:

Accounting, Biography, Business Administration, Economics, Education, Fine Arts, Folklore, History, Journalism, Language and Literature, Law, Library Science, Music, Philosophy, Political Science, Religion, Social Psychology, Social Work, Sociology, Speech, Speech/Theater

Section B includes:

Agriculture, Agronomy, Anatomy, Anthropology, Astronomy, Bacteriology, Biochemistry, Biology-Genetics, Biophysics, Biostatistics, Botany, Chemistry, Engineering, Entomology, Food Technology, Gas Tech-

nology, Geography, Geology, Geophysics, Health Sciences, Home Economics, Hydrology, Marine Sciences, Mathematics, Microbiology, Mineralogy, Oceanography, Pharmacology, Physics, Physiology, Psychology, Space Sciences, Speech Pathology, Statistics, Zoology

also available:

AMERICAN DOCTORAL DISSERTATIONS, an index of all such works accepted by institutions in the United States and Canada, whether published by University Microfilms or not. Titles are arranged by authors within academic fields and also by institutions.

Dissertation Abstracts features:

- Approximately 98% of the U.S. colleges and universities granting doctoral degrees cooperate fully in the Dissertation Abstracts program.
- Volume "A" lists dissertations in the Humanities and Social Sciences.
- Volume "B" lists dissertations in the Physical Sciences and Engineering.
- Each entry is identified by academic field, title, order number, author, institution, supervisor (director, advisor, etc.) and number of pages in the dissertation.
- Each entry includes a 600-word abstract written by the author.
- Volume format: 8½ x 11", sewn binding, soft cover.
- Complete dissertations are available as xerographically-reproduced bound copies or on 35mm positive microfilm. Prices as low as \$3 per dissertation.
- Backfiles of Dissertation Abstracts also available on microfilm or as xerographic copies.

American Doctoral Dissertations

For the past several years University Microfilms has published **American Doctoral Dissertations**, an index to all doctoral dissertations accepted by institutions of higher learning in the United States and Canada, whether the dissertations were published by University Microfilms or not. The titles are arranged by authors in subject fields, and by institutions.

A subscription to **American Doctoral Dissertations** may be placed separately or in conjunction with a subscription to either or both volumes of **Dissertation Abstracts**. Subscription rates for both publications are detailed on the order form below.
