## PRICE REDUCTION

•

Because of increased demand for SDS 900 Series Computers (we're building more than 10 a month), we've been able to reduce our production costs. So we've reduced our prices, too--substantially!

THE NEW PRICES ARE:

	Purchase	Lease
SDS 910 with 2048 word memory, and Paper Tape Reader	$41,000	$1,440
SDS 910 with 4096 word memory, and Paper Tape Reader	$56,000	$1,890
SDS 910 with 8,192 word memory, and Paper Tape Reader	$71,000	$2,390
SDS 920 with 4096 word memory, Paper Tape Reader, Paper Tape Punch, and Input/ Output Typewriter	$83,000	$2,690
SDS 920 with 8,192 word memory, Paper Tape Reader, Paper Tape Punch, and Input/ Output Typewriter	$98,000	$3,190
Additional 4096 words of memory after first 8,192 words	$20,000	$ 600

This production efficiency has affected SDS 9300 prices, too. For instance, a 9300 with a 16,384 word memory, and built-in floating point hardware used to cost $410,000--now it's only $292,000.
