

This document refers to a box of technical reports in the Computer History Museum's collection, described under catalog number 102748602.

The following technical reports in this box have accompanying descriptions:

Issues in the architecture of office software systems

"This report is an examination of possible methods of tracking context shift in natural language interfaces."

Implementing information management at Digital Equipment Corporation: the rest of the story

"This paper describes Digital's vision and its approach to information management. Digital strives toward the integration of its business functions without compromising these functions' individual efficiencies."
