

# IN COMPARISON AFTER COMPARISON, IN COMPANY AFTER COMPANY, IN COUNTRY AFTER COUNTRY, THE CHOICE IS CONTROL: MANUFACTURING.

Hundreds of manufacturers worldwide, including the dozens in this special edition, have implemented CONTROL: Manufacturing™ from Cincom. In doing so, they have selected a proven MRPII solution with over ten years of successful results behind it.

These same companies, in a wide range of industries, are integrating manufacturing and financial applications with every aspect of their business. And many

are taking advantage of CONTROL: Manufacturing's unique architecture for distributed implementation, utilizing Digital's VAX and/or IBM platforms.

In short, the ground we've covered with our customers has uniquely positioned us to bring a world of experience to you. And we deliver that experience through a network of highly skilled people in every corner of the globe, who are backed by worldwide com-

munications and support systems.

If you're looking for proven systems to support discrete, repetitive, process or project-oriented environments, please read over the articles and case studies on the preceding pages.

To find out more, call today: 1-800-543-3010. In Ohio: 513-661-6000. In Canada: 1-800-268-9279.
