

April 7, 1990

Gary Morgenthaler, Chairman  
Paul Newton, President and CEO  
INGRES Corporation

Dear Gary and Paul:

On April 4, 1990, I was confirmed by the Senate as an Associate Director of the Office of Science and Technology Policy in the White House. My appointment will be effective on April 8, 1990. That being the case, I hereby resign as Consultant and Corporate Secretary of the INGRES Corporation, effective April 8, 1990.

For more than nine years, RTI and INGRES have been an important part of my life. My hope for its fortunes is undiminished, even though I will no longer have a formal role. Please accept on behalf of the entire Board my best wishes and my thanks for many years of friendly and constructive association.

My sojourn in Washington is likely to be short, and I look forward to an opportunity of serving the Company again.

Sincerely yours,

  
Eugene Wong
