RE: Hydra One preview at MacWorld Expo

Later this month, Hydra Systems will announce and ship the Hydra One™, a breakthrough product which allows PC users to run Macintosh® applications software:

- Works with all XT/AT/386/486 IBM PC's and compatibles
- Runs Macintosh applications software faster than the Mac Classic or SE
- Allows the full use of advanced desktop features such as desk accessories, fonts, etc.
- Uses the PC's existing peripherals such as printers, mouse, keyboard, disk drives, etc..

Please join us.

*You are cordially invited to
attend a limited preview of
the Hydra One system during the
MacWorld Expo in San Francisco.*

*San Francisco Marriott
Pacific Room F - 4th floor*

*Saturday, January 12, 1991
4PM to 8PM*

*The San Francisco Marriott is located 1 block from
Moscone Convention Center at 44 Fourth Street,
between Mission and Market, in San Francisco.*
