

# Guide to the Peter N. Schink papers

**Dates:** 1961-1996, 1961-1975 bulk

**Extent:** 1.5 linear feet, 1 record box and 1 half manuscript box

**Collection number:** X4423.2008

**Accession number:** 102708048

**Processed by:** Sara Chabino Lott 2008. Processing funded by a grant from the Gordon and Betty Moore Foundation.

## Abstract

The Peter N. Schink papers contain the professional papers of Schink, a salesman and manufacturer's representative in the semiconductor industry.

## Administrative Information

### Access Restrictions

The collection is open for research.

### Publication Rights

The Computer History Museum (CHM) can only claim physical ownership of the collection. Users are responsible for satisfying any claims of the copyright holder. Permission to copy or publish any portion of the Computer History Museum's collection must be given by the Computer History Museum.

### Preferred Citation

[Identification of Item], [Date], Peter N. Schink papers, Lot X4423.2008, Box [#], Folder [#], Computer History Museum

### Provenance

The Peter N. Schink papers were donated to the Computer History Museum in January of 2008 by Janis C. Denison, widow of Peter N. Schink. Schink acquired the papers during his thirty years working in the semiconductor industry. Denison was in possession of the papers from the time of Schink's death in 1993 until their donation.

**Scope and Content of the Collection**

The Peter N. Schink papers contain Schink's professional papers related to sales and consulting in the semiconductor industry in California. The records span 1961 through 1996 with the bulk of the collection being from 1961 through 1975. The collection contains technical papers, reports and notes related to "micrologic" and product specifications, memoranda, weekly sales reports, market analysis, company profiles, symposium proceedings, integrated circuit course books, databooks, catalogs and business plans. The collection is arranged in 2 series:

Series 1: Background material

Series 2: Printed

Unless otherwise noted dates are inclusive.

**Indexing Terms**

Schink, Peter N.

Integrated circuits

Semiconductor industry

**Collection Contents****Background material, 1961-1984**

This series contains background material from Schink's work as a salesman at Amperex Electronic Corporation, Fairchild Semiconductor and Standard Microsystems Corporation and his later work as a manufacturer's representative. Included are Fairchild Semiconductor memoranda from the Military Microcircuits Marketing department to all field sales members and Schink's weekly sales reports discussing dealings with Lockheed Aircraft Corporation, Zenith, General Electric, National Cash Register Corporation, Honeywell, Ferroxcube and other companies located in the Western United States. Also in this series are MOS, LSI and electronic watch market analysis, technical papers and symposium proceedings. This series is arranged chronologically.

**Printed, 1963-1996**

This series contains published and/or widely distributed printed material such as databooks, catalogs and course books. This series is arranged alphabetically by title.
