Discussion of Ranch STRAP.

2 sections

1. Mnemonics - coding
 2. Data handling ideas
-

② Multi-level addressing - not for STRAP I? but don't make it difficult later.
"Data Def" - "Data Reservation" statements should not.
[combination of reservation & def. - in Ranch.]?

Heading

- Discussion of "BLOCK" as "def. block" eg. Example 3 p. 22
 - in STRAP II - do want indirect block addr. - not in STRAP I.
 - discussion of "FILL" - "Fill" more complicated cases "Data" homogeneous. (Block is not) of mixture of data.
-

① Coding form, Symbolic, Mnemonics, Alphanumeric symbols.

- coding form - continuing to next card? - not necessary
bound to appl. prog by agreement with LA

- Data formats. (sign modifier)

Example 2 p. 17

L (,N) : SAM(X9)

vs.
