MEMORANDUM TO:

Mr. D. W. Pendery

SUBJECT:

7000X

REFERENCE:

Dr. T. R. Horton's letter to
Dr. M. A. Shader dated 4/16/59

This comes after our conversation, but puts more heat on our activity. Mr. M. B. Smith has tentatively agreed to some version of STRETCH as the answer to Transac and I think it is up to us to be clever enough to solve the problems of a \$125K (?) STRETCH.
