

PROJECT SILO TECHNICAL MEMO #2

SUBJECT: INVESTIGATION OF SCREEN PROCESS PRINTING,  
MATERIALS AND TECHNIQUE

BY: E. B. Chapman

DATE: May 31, 1956

ABSTRACT: This report summarizes work in detail on the evaluation of screen process printing techniques and materials. An examination of commercially available process films and sundry equipment was conducted to determine the resolution limit of films and recommendation of materials for industrial use.

The work hereby reported was performed with the support of Government Contract NOBsr 63472, Task 11.
