

The ALGOL Bulletin is produced under the auspices of the Working Group on ALGOL of the International Federation for Information Processing (IFIP WG 2.1, chairman W.L. van der Poel).

The following statement appears here at the request of the Council of IFIP:

"The opinions and statements expressed by the contributors to this Bulletin do not necessarily reflect those of IFIP, and IFIP undertakes no responsibility for any action which might arise from such statements. Except in the case of IFIP documents, which are clearly so designated, IFIP does not retain copyright authority on material published here. Permission to reproduce any contribution should be sought directly from the authors concerned. No reproduction may be made in part or in full of documents or working papers of the Working Group itself without permission in writing from IFIP."

Facilities for reproduction and distribution of the Bulletin have been provided by the Mathematical Centre at Amsterdam.

All enquiries and contributions should be addressed to:

F.G. Duncan (Editor, ALGOL Bulletin), Lubeckstraat 71,
THE HAGUE, The Netherlands.

AB19.0 EDITOR'S NOTES

This issue of the Bulletin is the biggest to date. It might have been even bigger had all the promised contributions materialised. Perhaps the gentlemen concerned can be persuaded to produce them in time for AB20.

The closing date for contributions to AB20 is March 20th 1965, but it would be appreciated if papers, particularly the longer ones, could be sent in as early as possible. This would allow AB20 to be distributed well before the next WG 2.1 meeting.

Stocks of earlier issues of the Bulletin having been depleted, it is no longer possible to supply sets of back numbers to new readers. Please do not ask for back numbers unless you have no other access to the issue concerned. Requests already received have been satisfied as far as possible.

In AB20 it is hoped to give an index with cross references to all the material in AB16-AB20 .

F.G.D.
January 1965.
