

*We've
Trimmed
the Tree*

*and
Slashed
Prices!!*

Consider This:

- *A 32-bit superminicomputer*
- *Virtual Memory*
- *1M Byte Memory*
- *High-resolution, bit-mapped display*
- *17" Display, 1024 × 800 viewable*
- *DOMAIN Local Area Networking*
- *AEGIS Operating System*
- *Connectability to Local Disk*

All This and More For Just \$9900!!!

That's right — this is no humbug! The DN300 is now available for less than \$10,000!!

We've also dropped the DN320 by as much as 18%. And we've made equally incredible cuts — as high as 15% — in the costs of related service and disk/diskette subsystems.

**NOW IT'S TRULY EASIER THAN EVER TO
PUT AN APOLLO WORKSTATION IN
YOUR FAVORITE TECHNICAL
PROFESSIONAL'S STOCKING!!**

Get the details in the package accompanying this card. This is one holiday your customers and prospects will love you for!

Happy Holidays!
