Tomorrow is Now

We are about to begin our 1974 National Sales Meeting, and it promises to be the best meeting yet. Our company and our industry are moving so rapidly that it is sometimes impossible to distinguish between the future and the present. New products, technologies and applications appear at an ever-increasing rate; and if you don't look far enough ahead, you sometimes find yourself looking back.

So the theme for our 1974 meeting is "Tomorrow is Now", and about the only looking back we are doing is to the Hilton Hawaiian Village where we had our spectacular 1973 sales meeting . . . and intend to have another in 1974.

This booklet is a souvenir of that meeting and an expression of our appreciation of your outstanding 1973 performance that followed.
