**ASHTON-TATE NATIONAL TOUR TO FEATURE
MULTIMATE ADVANTAGE VERSION 3.60**

TORRANCE, Calif., May 27, 1986 -- Ashton-Tate today announced it will conduct a 10-city tour in June to present its MultiMate Advantage Version 3.60 Professional Word Processor, including the new local area network (LAN) family, to dealers and business users.

Senior Ashton-Tate sales and product marketing executives will visit 10 cities in the United States and Canada from June 10-26. They will give comprehensive demonstrations and presentations of MultiMate Advantage 3.60 at morning and afternoon sessions set for each city. The events also will highlight how MultiMate Advantage 3.60 works with the optional MultiMate Business Advantage Keyboard, as well as working with the other Ashton-Tate products, such as dBASE III PLUS and Framework II.

The flagship product in Ashton-Tate's MultiMate word processing family, MultiMate Advantage 3.60 is an easy-to-use, powerful word processor that provides the flexibility to meet both

(more)

corporate and individual needs. The product's related LAN family includes an IBM PC Network version, a version that supports Novell Advanced Netware/86 and Novell Netware/86, and a universal version that supports most other networks.

"Our intent is to generate awareness of the MultiMate products and their functionality for dealers, distributors, and corporate and individual users," said Lydia Dobyns, Ashton-Tate's director of integrated and word processing product marketing.

Ashton-Tate has scheduled two separate open sessions in each city. Morning sessions, from 8:30 to 11:30 a.m., are for dealers. Afternoon sessions, from 1:30 to 4p.m., are for business users, ranging from individuals and small businesses to corporate MIS/DP managers. Those interested in registering for the seminars may call seminar reservations at MultiMate, (203) 522-2116.
