

MRPS

SIX REASONS WHY CINCOM'S MRPS IS THE SUPERIOR SOFTWARE SOLUTION TO YOUR MANUFACTURING CONTROL PROBLEMS.

Whether you're a corporate DP manager, a manufacturing executive or a shop-floor supervisor, Cincom's MRPS is the superior solution to your manufacturing control and planning problems. There are many reasons why. Here are six:

1. High Performance

MRPS is a well-designed, well-written system with proven on-line performance. MRPS fits easily into virtually any DP strategy and it provides state-of-the-art manufacturing control without disrupting established manufacturing procedures.

2. DBMS Integration

Unlike other manufacturing software systems which are based on the enhancement of older technology, MRPS is based on completely new technology designed to meet today's modern manufacturing needs. Powerful on-line DBMS integration insures data integrity and increases information availability. Simply stated, MRPS keeps the information accurate. And accurate information leads to better business decisions which ultimately lead to greater manufacturing efficiency.

3. Unparalleled Portability

MRPS offers an unparalleled degree of hardware portability for IBM mainframe and DEC™ VAX™ users. For situations where the high performance of the VAX is needed, modules can be tailored for the VAX. For tasks best handled by the IBM mainframe, IBM modules can be used. This compatibility provides the freedom to establish one consistent approach to manufacturing control throughout the organization.

4. Modular Growth Path

MRPS is a modular system that provides comprehensive manufacturing control. Virtually every manufacturing need is addressed

in one of four planning modules which include: Manufacturing Materials Planning, Master Production Scheduling, Production Planning & Control, and Vendor Analysis & Purchasing. Due to the extreme flexibility of its modular design, MRPS can be tailored to meet specific needs. You can begin with the module, or modules, that address immediate needs. Then, as you grow, MRPS can grow with you.

5. Proven In Use

In more than 100 installations around the world, MRPS is providing dramatic improvements in both the productivity of the individual user and the company as a whole. The on-line high performance of MRPS has made believers out of many manufacturing managers who have been disappointed with the performance of other manufacturing systems.

6. Cincom Systems Support & Service

Invest in MRPS and you will establish a relationship with a company dedicated to customer satisfaction. As a Cincom customer you have at your disposal the education, service and support capabilities of one of the world's largest software vendors. With over 50 service and support locations and over 2,000 manufacturing customers, Cincom Systems has helped more manufacturing organizations solve their systems software problems than any independent software vendor.

For more reasons why MRPS can increase the productivity of your manufacturing environment, ask for our FREE full-color MRPS brochure. We'll also be happy to send you information on any of the Cincom family of major new software technologies. Simply call or write, Cincom Marketing Services Department, 2300 Montana Avenue, Cincinnati, Ohio 45211.
