

## Background

For release: **JANUARY 1989**  
Contact: **Judy Marie Merrill**  
**Ashton-Tate**  
**(408) 927-5157**

20101 Hamilton Avenue  
Torrance, California 90502-1319  
Telephone: 213-329-8000  
Telex: 669984 ASHT TATE LSA

### **FULLPAINT FACT SHEET**

**FullPaint** is a critically-acclaimed graphics generator that provides full screen painting capability and high performance. Multiple files open, scrolling tools, movable and hidable tool palettes and familiar interface make FullPaint the premier paint program in the Macintosh environment.

Developed by Ann Arbor Softworks, the program quickly became a Macintosh standard upon its release in 1986.

#### **FEATURES AND BENEFITS**

- Full-screen painting and floating palettes.
- Multiple documents. Up to four full-page documents may be open at once.
- Large selections. Images up to full-page size can be cut or copied and then pasted into other documents or applications.
- Pop-up rulers and MouseSpot provide highly accurate measurements for engineering and desktop publishing. Measurement units include inches, picas, centimeters and pixels.
- MouseCrawl scales down mouse movements, allowing users to work with precision. Used with rulers and MouseSpot for exact detail.
- Extended text modes offers custom font sizes from one to 127 points, plus ways to combine text and graphics.
- Special effects tools: rotate, skew, distort and perspective.
- Scrolling tools in Fatbits allow users to automatically access areas beyond window boundaries.
- Editable brush shapes allow users to edit paintbrush shapes and create new ones.

(more)

**Printing**

- Color printing.
- Printing enhancements. On ImageWriter, prints documents in 50 percent reduced size or 200 or 400 percent enlarged size. On LaserWriter, prints from 50 to 400 percent size of the original.
- Higher resolution on LaserWriter. Creates documents at higher resolution than normal 72 dots per inch on the Macintosh screen: 150 dots per inch with four sections, 300 dots per inch with 16 sections.

**SYSTEM REQUIREMENTS**

- Macintosh 512, Macintosh 512Ke, Macintosh XL, Macintosh Plus and Macintosh SE.
- One diskette drive with 512 Kbytes of RAM (required) or two diskette drives with 1 MB of RAM (recommended).
- Supports all Apple-supported printers.

**SUGGESTED RETAIL PRICE**

- \$99.95
