# Dr. Logo's Challenge

Move the turtle to a corner of the screen and then draw a border around the screen. How many steps does it take the turtle to move across the screen? How many does it take to move from the top of the screen to the bottom?

Dr. Logo's Challenge

Clear the screen and draw this star. If you need help, here's a hint: some of the commands you need are **FD 60, RT 60,** and **RT 120.**
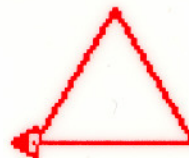

Drawing Simple Shapes

You can make the turtle go anywhere on the screen using the commands you have learned. Type **MAZES,** and Dr. Logo will let you move the turtle through some mazes to the Winner's Box.

Try to draw the shapes on this card. If you can't do it yourself, use the commands next to each shape. Remember to type **CS** before you start each drawing.
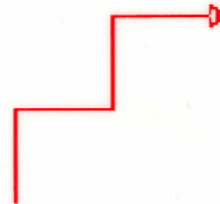

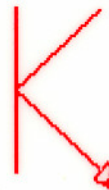

RT 30 FD 50 RT 120 FD 50 RT 120 FD 50

CS
FD 80
RT 90
FD 50
RT 90

RT 90
FD 50

FD 15 RT 90 FD 15 LT 90 FD 15 RT 90 FD 15

FD 80 BK 40 RT 45 FD 55 BK 55 RT 90 FD 55

You can put as many commands on a line as you want so long as you leave spaces between them.

Try drawing your own shapes.
