#### THE DEFINING LINE

#### The Concept:

How the world engages with financial services will never be the same. This direction is about embracing future technology with a metaphoric line that defines where yesterday ends and tomorrow begins. Arriving at the site, visitors are met with a small line that quickly expands vertically from the center. High-level messaging and a photo stream of the Citi Ventures portfolio expand horizontally from behind the line. As users scroll, new content and messaging appears, revealing the four key areas of investment, three widgets containing timely and relevant content, and logos of the companies you've partnered with. The pattern layered over the background plays upon the theme of discovery with overlapping circles—some bolder and with color—to represent discovering bold, vibrant companies in the crowded world of tech. Twitter, event, and news icons are persistent, in the upper right, to remain accessible. Citi Ventures' red and blue palette is coupled with vibrant colors to bring life and flexibility to the look and feel.

#### The Concept:

Norgay Tenzing was the Sherpa who guided Edmond Hillary and his expedition to the first Everest ascent. Without Norgay the expedition would have failed. The Tenzing Factor builds on the intrepid spirit of these adventurers and the parallels Citi Ventures brings to each of its portfolio companies. Expertise, guidance and perseverance. This look and feel places the Sherpa metaphor front and center. Very bold, differentiated and modern the Sherpa theme brings the spirit of discovery to a whole new level of ownership.

Citi Ventures is Citi's global corporate venturing arm. We're discovering new technologies and bold ideas with the power to transform the future of financial services. At Citi Ventures we are in lockstep with all of our portfolio companies as they work to scale.

## THE TENZING FACTOR

Building a business is hard. As Norgay Tenzing said about Everest, "My role is to reach the peak, together and alive." Tenzing was a Sherpa. His expertise, strength, and support enabled a successful ascent. He was there every step of the way. At Citi Ventures we are the Sherpas who support the efforts of each and every company in our portfolio to scale.

Like Tenzing, once we commit there's no turning back. We call this partnership the Tenzing Factor. Without a Sherpa no one survives the climb to Everest. No one. Without and Edmund there's no need for a Sherpa. A symbiotic relationship for the intrepid few.

Citi Ventures is focused, forging a new way to discover better financial services that impact everyday experiences. This crisp, contemporary look and feel uses a negative photo frame as a subtle device to capture a myriad of Citi Ventures portfolio companies in an effort to tell a multidimensional story. Modern photography, typography and iconography further accent a crisp story with a provocative message: "Masters of Discovery, Fanatics of Execution" implying that Citi Ventures and its portfolio companies live by this credo to further accelerate change in the world of financial services. These brand elements are ownable and help create a sense of confidence and trust-the foundation for any successful partnership.

# ONE IN FOUR

# The Concept:

A whole new dimension in discovery. This direction positions Citi Ventures as the master mountaineer who dispels the fear of embarking on the dangerous, unpredictable terrain ahead. Here, we experience a limited color palette to shift focus over to the photography and typography to tell the story. As users scroll, they discover a responsive design that reveals Citi Ventures' mission, three practice areas, portfolio, and blog. The reality is only one in four startups survive. Citi Ventures has the tools, the experience, and the drive needed to take companies to the next level—to push the limits beyond what anyone thought was possible.

# HIGH TOUCH

# The Concept:

Building on the theme of Discovery, this concept uses metaphoric images of exploration, combined with embossed attributes that speak to the high touch approach Citi Ventures applies to each and every investment. The Sherpas of venture investing guiding entrepreneurs from engagement to exit, Citi Ventures is a constant and experienced guide. Using bold swath of color, imagery and typography this look and feel translates to high touch in the analogue as well as digital. In print some element of typography would be embossed to further the differentiation.

# **CULTIVATING DISCOVERY**

# The Concept:

Citi Ventures is in the discovery business-open to the new, in love with curiosity, and willing to test, iterate, and repeat to disrupt the status quo at the intersection of technology and financial services. Forging a new path forward means understanding the current environment has limitations, but through collaboration, support, and fearless thinking anything is possible, it's GO TIME! This creative direction uses an expanded canvas to create that sense of discovery, excitement, and wonder: that there is more than meets the eye, that you must try to view the entire landscape in order to create new experiences. The website functionality allows the user to explore Citi Ventures in a unique way-different images and animated gifs express everyday life and the notion that innovation can come from anywhere and anything. The images frame different content and calls to action to engage the visitor. Modern typography and impactful messaging bring this website to life and signal that there is a new way to discover, Citi Ventures.

# Deborah Hopkins

CEO, Citi

Debby is Citi's Chief Innovation Officer and CEO of Citi Ventures. She founded, designed and built Citi Ventures from the ground up, recognizing the critical role innovation must play in supporting the broader organization amid accelerating disruptive forces. Based in Palo Alto, Debby and her team partner with Citi's businesses and functions to shepherd creativity and implement pervasive solutions. Her mandate also includes analyzing market signals and trends to identify new ideas and activities in fintech as well as seeking investment opportunities in core domain areas relevant to financial services.

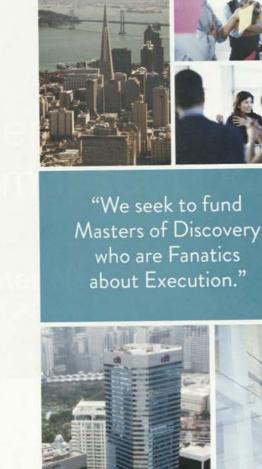

Since joining Citi in 2003, Debby has served in a number of executive roles, including Head of Strategy and Mergers & Acquisitions, Chief Operations & Technology Officer, and senior advisor to the Global Investment Bank, a role she continues in today. Prior to Citi, she held senior-level positions at several global firms, including Chief Financial Officer for both Boeing and Lucent Technologies, and Vice President of Finance for General Motors Europe.

Debby serves on the Board of Directors of Qlik Tech, and the Advisory Boards of Stanford's Technology Venture Partners program and Riverwood Capital Partners. From 2000 to 2005 she was a member of the Board of Directors of DuPont. She also serves on the non-profit boards of Citizen Schools, focused on expanding the learning day for low income middle school students, and the Green Music Center, an education and community arts facility associated with Sonoma State University.

Fortune Magazine has twice placed Debby among the top 10 most powerful women in American business, and she was named to the Institutional Investor's Tech 50 list for 2011-14. A sought-after speaker and mentor, Debby holds honorary doctorates from Westminster College and Walsh College.

# **FABRIC OF TECHNOLOGY**

# The Concept:

Being great is hitting the targets nobody else can, being legendary is hitting the targets nobody else can see. Citi Ventures is defined by the latter and through partnerships and collaboration with entrepreneurs Citi Ventures is able to hit the bullseye, again, and again for disrupting the financial services industry. This creative direction uses a "fabric of technology" graphic that speaks to this partnership, collaboration and disruption. Citi Ventures, entrepreneurs and their technologies are not siloed, but inextricably connected in order for entirely new processes, capabilities and experiences to emerge. The four target markets are highlighted prominently on the landing page, instantly engaging visitors while educating them about Citi Ventures' focus areas. A bold color palette, clean layouts and scrolling functionality work seamlessly together. This is a huge step forward from typical venture.

#### The Concept:

Completely departing from the current Citi Ventures brand, this website signals that there is something different, a new way of thinking, a new approach to investing and driving innovation across the financial services industry. Large imagery and simple messaging highlight the disruptive ideas and entrepreneurs that Citi Ventures believes in. Fine line graphic elements help connect investments with entrepreneurs. Entrepreneurs are prominent and shot in a reflective light intended to further depart from anything conventionally "bank-like". Scrolling functionality, parallax behavior, side-bar navigation, colorful palette and large navigation buttons are modern, appeal to younger audiences and speak to the foundation of Citi Ventures—Discovery + Execution = Growth.
