

LEADWIRE

NEWS SUPPLEMENT

Open Circuit

Rumor has it that the Semiconductor Headquarters building is nearing completion. Marketing and Equipment Fab and Design will lead-off the move. . . . **Keith Thomson** and **John Innes** figured out that the new building's square footage is the equivalent of 1600 residential homes . . . Seen on the bulletin board outside the Whisman Road Cafeteria was a notice: "Need Ride Urgently, from Campbell/Westgate area, work in Hong Kong, swing shift." Anyone know what time the plane leaves? (Actually Hong Kong refers to a special section of Commercial Test and Finish, so maybe a car would do) . . . **Jennie Bagdon** of Repro finally got the best of the small, furry varmit that's been running around under her desk. She accidentally stepped on the cute little mouse, but he got the last laugh sending her to higher ground atop her desk while they carted him away . . . **Ann Norris**, MOS secretary, got more than she bargained for when she planned a surprise birthday party for her daughter Mary Ann just turning 13. She thought she'd gather 20 boys and girls together for the party, but she wasn't too sure who to ask so she enlisted one of Mary Ann's girlfriends to do the inviting. Sixty-five showed up for the party, and the only out for Ann was to hire a hall and cook several pots of spaghetti. Son Billy, 10, helped out serving 200 cokes to all the "invited guests". Happy Birthday, Mary Ann! . . . Meet "Super Skater" **John Compani**, Fab 4 Foreman. John holds the world record for breaks, fractures, and splintered bones. It may even be an Olympic Record. With little effort he managed to break both arms (one in two places and the other in four) while enjoying a night at the skating arena. Of course, it wasn't his fault; he was just saving another skater who fell into him. At least, after six weeks, the casts are off, and he's ready to return to the rink again

. . . There must be something in the water. Within three weeks Equipment Design witnessed four special events: **Jim** and **Jan Hill** had twins, a boy, James, and a girl, Heather; **Jan** and **Rita Visser** had a boy, Marlon, and **Dave** and **Lana Ettelson** had a boy, Jeffery . . . From Microwave Assembly comes word that **Pat Wu** had a baby boy . . . And speaking of special events, **Lou Magne**, Plant Engineering, and **Connie Rust** of Traffic were married Saturday, March 2nd . . . **Joan Appleman** of Employee Relations and **Dave Hadden**, who was with Instrumentation until March 15th, did the same thing on March 16th. Do you suppose Joan will support them both? . . . and this last adinfinitem, **John Arthur**, one of Mountain View's Personnel Administrators and chief person in charge of cafeteria operations is determined to keep knives, forks, spoons, cups, food, and other cafeteria items in the cafeteria. It seems he "ran into" **Gordon Morrison** in the hall the other day. The result? A new innovation in ties—hot chocolate covered . . . and that's the way it goes.

New Trade Mart Opens for Mountain View, R & D, and Instrumentation Employees

A new classified ad publication, "Odds & Ends", debuted in mid-March. It will be published twice monthly, and will serve all Fairchild employees in the Mountain View, R & D, and Instrumentation facilities.

To advertise in "Odds & Ends", just write out your ad on the cards provided by Personnel Administrators, the Personnel Department, or found in **Leadwire** reading racks.

Introducing: A New Publication

There's just too much going on at Mountain View, R & D, and Instrumentation to include in a regular **Leadwire**. So the result? a **Leadwire** News Supplement.

It will contain big news, little news, and all the news that's fit to print (someone already said that). The more news the better.

One easy way to submit news is through your **Leadwire** reporter, or use the handy-dandy, easy-to-use **News Flash** sheet. It looks like this:

News FLASH

NEW ITEM (newsworthy, 3-year celebration, award, outstanding achievement, special occasion, sporting event, moving up, new plant, feature material, special happening, etc.)

THE FACTS (who, what, where, when, how, and why):

PICTURE/PICTURES ENCLOSED: YES NO
(Please identify people in pictures)

SUBMITTED BY: _____ PHONE: _____
DEPARTMENT: _____ LOCATION: _____
JEFF: _____

PLEASE SEND TO: JUDY BRADY
MAIL STOP #4-228
EXT. 41111

It's available from your Personnel Administrators or your Personnel Office, or in **Leadwire** reading racks. No section or department should be without **News Flashes!** So keep those stories about your department coming into the **Leadwire** office, and use those **News Flash** forms.

Group Insurance and You SAY IT IN ENGLISH PLEASE

"I GIVE UP, HOW MUCH INSURANCE DO I HAVE?"
 "WHAT ARE THESE DEDUCTIONS FOR ANYWAY?"
 "YOU NEED A PHILADELPHIA LAWYER TO UNDERSTAND THIS STUFF!"

These are comments that plague the Group Insurance Office daily. Hopefully, this column will provide an understandable discussion of group insurance — just how it relates to you and answers to questions we've been asked by employees. (We'll try not to make it too stuffy!)

Let's Try This One for Size!

"COB." What Is It?

Well, COB — short for "Coordination of Benefits" — is a clause included in most basic and major medical insurance plans taking into consideration other insurance coverage that you may have.

If you are covered under more than one group medical insurance plan (your husband's for instance) which has the same coverage as ours, the insurance companies merely check with each other to assure the greatest possible protection without paying twice for the same illness.

For example, Billy Jones (age 5) goes into the hospital for an operation and the doctor charges \$300 for the surgery. Mr. Jones' insurance plan would pay \$200 (if there were no other coverage) and Mrs. Jones' insurance plan would pay \$200 (if there were no other coverage). However, because both parents have group medical coverage on the child, they should receive the entire \$300. Through COB \$200 will be paid by Mr. Jones' policy and the additional \$100 will be paid by Mrs. Jones' policy.

The reason Mr. Jones' policy paid first is that he is considered the "breadwinner" and is responsible for all dependents. His policy would also pay first on any claims relating directly to him. Similarly, Mrs. Jones' policy would pay first on any claims relating directly to her. (There is one exception — if you are covered under two insurance plans and one of the plans **does not** have COB, the plan without COB always pays first.)

Instrumentation Employees Elect New Rec Council

A record 628 employees showed up at the polls March 15th to elect representatives for Instrumentation's 1968 Recreation Council. Those elected were **Ralph Jimenez, Frank Larraux, Ruth Zabel, Jim Tantillo, Romaine Ireson, Dimple Avers, Maria Humphrey, Bev King, Clyde Armstrong, Daren Greig, and Pam McKee.**

At the Council's first meeting **Frank Larraux** was elected President; **Maria Humphrey**, Vice President; **Ralph Jimenez**, Treasurer; and **Pam McKee**, Secretary.

Each employee nominated three people and the top three from each of eight different Instrumentation areas comprised the final slate. March 15th's election narrowed the field down to the winning eleven.

Don't forget !!!

Register to Vote

The important point to remember is that between two insurance policies most incurred expenses are covered.

Coordination of Benefits in our insurance policy and in most other major employers' policies give you greater protection . . . and at a lower cost to you!

DEC Wins Instrumentation's First "Vendor of the Month" Award

Ken Howser, Materials, and Dick Trevisan, Purchasing, instigated a new "Vendor of the Month" program honoring Fairchild vendors who have contributed extra time, effort, and initiative to particular programs at Instrumentation. Bob McIntruff and Al Beal, both of DEC (suppliers of the PDP-8 computers used by the Systems group), received the first Vendor award from Ken and Dick.

Viet Nam Is Not Far Away

Former employee and now Specialist Four Henry Hoshino who worked in Marketing Services Graphics section was awarded the Bronze Star for heroism and personal bravery under fire. The citation accompanying his Bronze Star reads, "Hoshino's courage and determination under fire contributed significantly to the successful extraction of the patrol, and the information his team brought back led to the destruction of a Cong base camp."

Remember to sign up to donate blood on April 16th and 17th

Parties and Potlucks

A special Mexican potluck was held for George Fox, General Foreman of Fab 4. The reason? The birth of his third child and very first boy. Marce Mora and Grace Casteneda made the party authentic wearing their native Mexican costumes.

George Fox

QA Technician Bill Morris and his wife were guests of honor at a baby shower February 16th. By the 24th they were the parents of a brand new baby daughter, their second girl.

Bill Morris

Jimmy Nelson pins a corsage on Pat Rider at a combination bridal shower for her and going away party for him. Pat's now Mrs. Silva, and Jimmy was transferring from Mountain View Packaging to the San Rafael plant.

Pat Rider, Jimmy Nelson

Aerospace and Defense has been really partying it up. Martha Gajewski was feted at a baby shower given by girls in the test room. Joe Short, A & D General Foreman, was honored at a shower. New addition to the Short family is daughter Stacy. Jim Soldani was surprised by a party celebrating his promotion from Technician to Foreman of A & D Data Check.

Jim Soldani

Don Hart shook many hands the day of his transfer from A & D Military Production to High Reliability Test and Finish. Don, Production Manager, received a gun display case from the group and a standing ovation from the 200 people assembled.

Don Hart

Valentine's Day was Bruce Thomas' day. It was also his birthday and it didn't go unnoticed, thanks to A & D Mark and Pack Swing Shift. Bruce is their Foreman.

Bruce Thomas

Aerospace and Defense sent Bill Bennett into the salesworld prepared to handle the pressing needs of a Sales Engineer's job. Bill, who was previously supervisor of the Product Support Engineering group for A & D, was promoted to Sales Engineer for the Northeast region.

Bill Bennett

Fairchilders Compete at Powder Bowl

The Fairchild Fleetfeet (**Keith Thomson, Chuck Thomson, and Marshall Wright**) participated in the 8th Annual Barrel Staves Olympics held at Powder Bowl Ski Resort at Lake Tahoe. Though each team member crossed the finish line with at least one barrel-stave ski on (and they were lucky to do that), the team didn't place among the winners. There's always next year, fellas.

Bridge Club Results

Fractional Master Point awards were given to several members of Fairchild's Duplicate Bridge Club, on February 13th to **Art Kitkowski and Jean Paul Meyer, Dana Goodrich and Jack Kinnebrew, J. Carr and John Lawrence**; and on February 28th to **Sal Cagnina and Tom Keasler, Sandy Gates and Ken Gates, Nancy Weiss and Carol DeRosia, Jean Paul Meyer and Art Kitkowski**. The club meets the second and fourth Tuesdays of each month at 7:30 in the Fairchild Drive Cafeteria.

Tenth Framers Still Lead League

Les Haynes, Ann Antonio, Howard Lueck, Ann Lima, and Jim Vinzant are still holding on to their lead in the Fairchild Mixed Bowling League. The results through March 7th are:

Team Name and No.	Won	Lost
1. The Tenth Framers - #15	25	9
2. The Lively Ones - #1	22	14
3. The Rat Finks - #11	21.5	14.5
4. Nine Out - #9	21	15
5. Brand X - #2	21	15
6. The Pebig Five - #4	21	15
7. The Paper Tigers - #14	20	16
8. The Holy Rollers - #10	19	17
9. Reber's Raiders - #7	18.5	17.5
10. The Gutter Dusters - #3	18	18
11. F Troop - #5	17	19
12. The Leftovers - #6	16	20
13. The T-Squad - #13	13	19
14. The Alley Oops - #8	13	15
15. The Five Strikes - #12	10	26
16. The Misfits - #16	10	26

Mountain View Rec Council Squares Away For 1968 Year

Mike Walton, new Mountain View Recreation Council President, addressed members of this year's council at a workshop held Friday, March 15th. His intent was to stir up enthusiasm among members for the job ahead — that of revamping recreational activities to broaden employee participation.

Activities for April include:

- Summer Intramural Golf League: Starts May 2, teams of 2, to play every Thursday night after work at 5:30. First meeting will be held April 19.
- Scuba Diving Club: First meeting April 10, classes start April 17 at the Mtn. View Recreation Park.
- Tennis: Starts in April, to be played at the Mtn. View High School and at Mtn. View Recreational Park.
- Trip to Falstaff Brewery on April 5, 9:30 p.m.
- Discounts of \$1.00: "Enter Laughing" March 26 thru April 7. "Sweet Bird of Youth" April 9 thru 21. "The Impossible Years" April 23 thru May 5.
- One Night Trip to Reno Harold's Club for \$13.85 of which \$10.00 is returned. This trip will be good year round.
- Century 21: "Far From The Madding Crowd". Sunday, April 21 at 8:00. Discounted tickets.

Be sure to call Fred Pieper (ext. 3331), Carol Leighton, Instrumentation (ext. 5522), or Ginger Tygret, R & D, (ext. 2695), if you're interested in any of these activities.

Leadwire Supplement

LEADWIRE

NEWS SUPPLEMENT

Open Circuit

You can tell it's near the end of the ski season by the broken legs and sunburned faces. In the broken bone category are R & D's **Monica Shairer** with a broken leg and **Bill Meuli** with a broken arm. **Mike Harris** suffered minor cuts and bruises. At Instrumentation **Jackie Abrew** chipped a bone in her ankle and tore tendons in her knee which ultimately resulted in crutches; **Walt Stalder** chipped a bone in his knee; **Ron Schwartz** sprained an ankle; and **Hank Ring** is limping around on crutches. At Mountain View **Gene Warter** has stitches to show for his ski efforts, **Jackie Menke's** got a cast to show for hers, and **Peggy Hoyle** takes top honors for the season — a cast on each leg. Really, it's a great sport . . . And so's basketball. Just ask **Skip Mattson** of Instrumentation. He's hobbling around on crutches — the result of an extremely energetic basketball game . . . For those in casts or who are still able to get around without them, Instrumentation's **Bill Augrose** is hosting his own film festival during the noon hours. Favorites like W. C. Fields' "The Fatal Glass of Beer" (all from Bill's film library) are being shown at random dates each month . . . **Jim Tantillo** has a huge project in front of him. He was "elected" to head up Instrumentation's Christmas Dance committee. How do you get to be so popular? . . . **Ted List** just completed the Radiation Safety course conducted by Radiation Detection Company. Ted is Day Foreman in the Application's Test Lab . . . Special events include a brand new son for **Robert Rumsey** and wife. He's at R & D. **Mary Carrasco** of Final Assembly at Mountain View just had a baby boy, and **Norma McCarn**, LIC Swing Shift recently had a baby girl . . . This last infantitem, **Jack Harris**, a Marketing type, notified the Group Insurance office that his wife just had a baby five months early. Think he was excited?

This Must Be Some Sort of Record

A & D employees who have been with Fairchild eight years or more got together for this picture. They represent more than 170 years of Fairchild experience, and you should hear the stories they have to tell. Those present for the picture were: (front row) **Joan Sopko** (10 years in June), **Liz Elstad** (celebrating her ninth anniversary the day this picture was taken), **Ursula de Vries**, **Connie Tanaka**, **Millie Wilkinson**, **Minnie Figueroa**; (second row) **Bev De Los Santos**, **Marcie Parks**, **Carol Arena**, **Flo Boutcher**, **Thelma Roseborough**, **June Chadim**; (third row) **Donna Stidham**, **Julie Howard**, **Lorene Baughman**, **Helen Iverson**, **Jean McNeal**, **Marguerite Chappell**, **Uli Hegel** and **George Compton**.

Fifty years more experience was missing from this photograph. Not shown were **Virginia Hall**, **Don Thorn**, **Betty Hawkins**, **Mary Valmoja**, **Alice Long**, and **Tony Mack**.

"Thanks" from Peter Fehlhaber

I want to thank management and employees of R & D sincerely for their sympathy and their generous efforts to help my little daughter and myself after our accident. This meant really so much to me, as I could not expect immediate help from my German family.

Peter Fehlhaber

Peter, an engineer with R & D, is recovering from an automobile accident that claimed the life of his wife and injured him, but left his daughter unharmed. In the two months following the tragic event, R & D employees helped make it possible for Peter's sister to come from Germany to help take care of his daughter and to speed his return to work.

Group Insurance and You

SAY IT IN ENGLISH PLEASE

HOSPITAL
EMERGENCY ROOM TREATMENT

two cases . . .

*Hickory Dickory Dock
Two mice ran up the clock
The clock struck one
(his life insurance paid off)
And the other escaped with minor injuries,
But was rushed to the Emergency Room.*

*Little Miss Muffet sat on her tuffet
Eating her curds and whey
Along came a spider and sat down beside
her
And she ate him too!
A stomach ache – excruciating pain –
Boo Hoo
I'd rush to the Emergency Room too.*

*Our friend the mouse was paid through
insurance
But our luckless Miss Muffet got none.*

WHY?

Insurance will cover total *hospital charges* for Emergency Room treatment *ONLY* if the treatment is necessary due to an accident, or if a surgical procedure is involved. Insurance will cover *doctor charges ONLY* if some type of surgery is necessary (i.e. stitches, removal of growth, etc.)

Aches and pains that are not related to an accident or do not require surgery are not covered.

New Citizen: John Smit

John Smit waves the American flags at a party thrown by Management Information to honor his becoming an American citizen on March 19th. John, a native of the Netherlands, has been with Fairchild since January of last year and is a computer operator for MI.

Tops on Two Counts

If not "tops," then certainly the Equipment Fabrication group holds commendable records for both safety and length of service. Unusual is the fact that nearly 20% of the people in this department (17.1% to be exact) have received their five-year awards. Within this group there are ten people who are now in their eighth, ninth, or tenth year with Fairchild Semiconductor. Probing deeper, 61.8% of the people in Equipment Fab are now in their third, fourth, and fifth year. Newcomers (less than two years) make up the remaining 21.1%. Master of the slide

rule, Dean Haire, worked up these statistics, and he also reports that Equipment Fab is responsible for a perfect "No Accident" record for 1968 to date. This is quite a record since Equipment Fab is a large machine shop activity and are consequently in the highest accidental risk rating category within the company.

Eight-to-ten year veterans shown here are (front row) Al Mota, Dean Haire, Art Sullivan, Wes Cox, and (standing) Mike Starr, Lorraine Piasecki, Don Visgar, Bob Bauer, Vern Cady, and Henry Testa.

This Picture Speaks for itself!

If you didn't get a chance to sign up to donate blood, it's not too late to call the nurse at your location to make an appointment to give on either April 16th or 17th.

After all, Snoopy would.

Each unit you donate goes into the Fairchild Blood Bank to be used by employees and their immediate families. The savings per unit is about \$25, and this service can be arranged by contacting any of the Fairchild nurses.

Pictures Are Worth A Thousand Words

Happy April Fools Day, John LaPorta.

Will the real Clint Haines please step forward; automation comes to Plant Maintenance.

PARTIES & POTLUCKS

Here's one for Ripley's "Believe It or Not." Of the nine people in their department, Spec Writers Linda Meyers, Jean McNeal, and Carol Hayashi all share an April 3rd birthday. And when you ask them their age, they all say "would you believe?"

Other birthdays celebrated were Debbie Winding's (Debbie's the receptionist for Distribution Services) and Sally Hansen's (Sally's a Senior Clerk in the Group Insurance Benefits section).

Dean Miller, QA Technician, was the center of attention at a baby shower for he and his wife. Those are dollar bills pinned to the diaper Dean's holding.

IF THERE'S NEWS ABOUT YOUR FRIENDS OR DEPARTMENT YOU'D LIKE TO SEE PRINTED, BE SURE TO USE THE HANDY "NEWS FLASH" FORM.

A Once In A Lifetime Shot

Robbie Robertson, Manufacturing Engineering at Instrumentation, split his own arrow while practicing at twenty yards in his backyard. This feat, called telescoping, is seldom accomplished in archery. Robbie and fellow employees **Bill Whitcomb** and **Don Pesavento** shoot in competition meets as members of the San Jose Archery Club.

LEADWIRE NEWS SUPPLEMENT

Open Circuit

Outdoorsman Ken Jacobi won "first in his class" in this year's A&D canoe trip down the Russian River. He managed to tip his canoe over three times — one of which he managed to neatly block the whole river causing seven other canoes to tip over with him. . . Had George Dowdy's daughter been there she could have saved them single handedly. Ten-year-old Carrie's a member of the Westmont Swim Club, and in a recent meet against the Campbell Swim Club she took firsts in the 50-yard breast stroke and the 200-yard relay, a second in the 50-yard back stroke and a third in the 50-yard free stroke. . . The cafeteria has received more than its share of complaints, but this one tops them all. Margaret Ledford has been heard to exclaim angrily, "Darn this cheap cafeteria ice, it melts!" . . . Even if Virginia Griggs is refusing to bake bread for Paul Hwoschinsky, Dorothy Malmin of the Insurance Office paid part of the claim with a loaf of homemade bread. . . Brent Knudson, Applications, is wheeling around town in a new Dune-Buggy his son won in a contest. It's easy to see who the winner was. . . Two young women at Instrumentation, Sherma Cook and Patty Pape, left for two weeks in Hawaii. Sherma is a secretary in Marketing and Patty a secretary in Instruments Manufacturing. Asked what they are anticipating the most, they giggled, "We got hopes." . . . Pam McKee's hopes came true June 8th when she became Mrs. Joey Mantia. Pam works in the Repro section at Instrumentation. . . National Semiconductor took it on the chin, losing 13-3 to Fairchild on the softball diamond. Fairchild's team was Jose Mora's Applications team. Jose and the boys collected 17 pitchers of beer for the effort in addition to the pride of victory. . . Judy Curiel's first anniversary celebration reported last issue was not her first anniversary with Fairchild but her first wedding anniversary. Judy's been with Fairchild several years. We stand corrected. . . And this last adinfinite, Jean McNeal's at it again. She fell out of a car while on the way back to work from lunch. The A&D crowd rushed her to El Camino Hospital, and she's on her feet again. Get a horse!

It's Just Too Hard To Say "Leadwire News Supplement"

So. . . why don't you think up a new name for this newsletter.

If the name you suggest is selected, the *Leadwire* office will make it worth your while. Of course, you'll receive a lifetime subscription to all the *Leadwire* publications as just one of your many rewards. You'll also get your selection from all the reject photos in the *Leadwire's* extensive

pictorial history of the company. And, to top it all, we've included a tape recorder, camera, or radio as a bonus. (Please choose one if you're the winner.)

This newspaper's got to have a new name soon, so please think up a clever name and send it to the *Leadwire* office before July 15th. Please give the *Leadwire* News Supplement its own identity.

Brrrrrr!

For almost a million years the temperatures have climbed to record highs in Fab 3, and Industrial Engineering has worked to solve the problem, but never for very long. Finally, they resorted to air conditioning, and OPERATION LONG-JOHNS was put into motion.

Devious foremen and supervisors had heard the girls complain about the heat for so long, that they thought it would be fun to see if the girls could stand the cold

treatment. Instead of announcing that air conditioning had been installed, they set the air conditioner on "frigid" and waited for the first complaint.

Ten minutes later, well, maybe not that soon, but soon, Marge Crandell registered the first complaint, and she won the award — phase two of OPERATION LONG-JOHNS. To keep her warm until the air conditioning is stabilized, she received a pair of (you guessed it) long red underwear.

New One-Woman Art Show

The paintings of San Jose artist Boni Appleman are currently being featured in an art show at Semiconductor's main complex on Fairchild Drive and Whisman Road.

Boni is an extremely versatile artist. Her work ranges from realistic country landscapes, through contemporary impressionism, all the way to inventive non-objectives, and yet, her individual style is recognizable in each painting. She works with equal ease in oils, acrylics, and encaustics, but as a rule she prefers to paint

with oils. Each of her paintings is custom framed.

Boni shows in galleries throughout the Bay Area as well as in the coastal art colony of Mendocino. She has studied with leading artists and now teaches private classes. Boni's work is found in art collections and private homes in New York City, and throughout the western United States.

All of the paintings in the show are for sale. For further information, contact Fred Pieper (#5131).

Tries Hand At Teaching

Jeff Wilson started with Fairchild on May 11, 1959. After serving as Plant Engineer at San Rafael during construction of the existing facility there, he returned to Charleston Road as Plant Engineer. During the winter of 1962, ground was broken for the new R & D lab in Stanford Industrial Park and Jeff nursed it along to completion. Again in October 1966, Jeff was at the helm at the opening of the third wing addition to the original R & D facility. Just recently he decided to turn to the profession of teaching, and the Cupertino School District will serve as an outlet for his talents. R & D wishes him the best of luck.

It Shouldn't Happen To A Dog

Jack Ramon, an Instrumentation type, sent the following:

Enclosed find a 'before' and 'after' situation of a local boy name of Eben Sieckert, Quality Control Inspector, Instruments. There is talk around that mysterious causes led up to the unveiling. He raises dogs - like Malemutes - and another dog feller, who prefers to remain nameless, says that Eben had a dog entered in a recent show wherein the judge was half drunk and/or nearsighted. At the end of the judging Eben was given the second place ribbon and his dog finished fifth in a field of five dogs and Eben. Losing owners put in a claim of foul since Eben was not accompanied by his owner like the rules plainly state. One way or the other, Eben shaved off the beard the next day.

His other claim to fame comes from his pet piranha, name of Albert, who bit him (Albert bit Eben). Eben needed nine stitches to close the wound. Scar shown and tale told on request. Albert was served at dinner on the following Friday with fried potatoes in the English fashion.

Before

After

"My Insurance Is Cancelled??!!"

All Life Insurance and Medical Insurance (for you and your family) is cancelled after 30 calendar days leave of absence. This includes personal, maternity, military, or any other absence over 30 calendar days. There is only one exception - benefits are continued for employees on

medical leaves!

So . . . upon returning to work, make sure your insurance is still effective. Make sure it hasn't expired. Make a trip to the Insurance Office to reinstate your insurance coverage!

Picnics 1968

First picnic of the season was Commercial Test and Finish's held at Frontier Village in early June. Cordy Lovato took these pictures.

For information on all Rec Council activities, special events, clubs, discounts, etc., contact: Fred Pieper (ext. 5131) at Mt. View; Jackie Abrew (ext. 5522) at Instrumentation; or John Gundershaug (ext. 2301) at R&D.

A huge wedding shower was held for **Brian Draper**, Inventory Control, and **Yolanda Hernandez**, Discrete QA, who were getting married the next Saturday... but not to each other. Nonetheless, Yolanda dutifully showed Brian each of her gifts and Brian appeared to be the typical nervous bridegroom. Just practicing?

A bridal shower and potluck were given for **Linda Meyer**, A&D Transistor Support group. She received everything from champagne to cookbooks. Shown with her are Marilyn Morton and Bill Fockelmann, Linda's supervisor.

A baby shower was held for **Rita Dyer**, IC Quality Assurance, who is expecting her first baby.

Parties & Potlucks

The A&D day shift Test Room girls gave a surprise baby shower for Foreman **Tom Baluch** when he became the father of his second son, **Marc Andrew**.

The A&D Mark & Pack girls gave a wedding shower for **Charlotte Jenkins** who became **Charlotte Dormer**. **Hilda Pendley** is shown with Charlotte.

Marian Quiroz and her husband may be having some very interesting meals, compliments of the Packaging group. One of the gifts she received at the wedding shower given in her honor was a box filled to the top with canned goods — but, with all the labels removed.

Lou Uyehara was given a baby shower by the Key punch group at Management Information. Lou is expecting her first baby soon.

The CIC Diffusion, Masking, Epi, and Pilot Line groups all went together to throw a wedding shower for **Bobbie Smith** of Fab 4, CIC Masking. The crowd filled 2 tables in the Whisman Rd. Cafeteria.

A dual-purpose party was given for **Becky Nichols** of Commercial Test & Finish. It was a bridal shower and 21st birthday celebration.

Doug Smith, Product Support Engineer for Digital Hi Rel was treated to lunch and cake on his birthday.

A baby shower was given for Henning Bungaard, Swing Shift Foreman of Data Check at A&D. He is the proud father of a daughter, Su-Yin. Henning's wife, Ling, worked in Fab 1 before her retirement from Fairchild.

Jim Morris and Gloria Slater were among the first to wish La Verne Robertson Happy Birthday. La Verne works in the QA Shipping cage for A&D.

The A&D QA Department gave a double birthday party for Dick Mundy, Liaison Engineer, and Minnie Figueroa, QA Inspector.

Barbara Brannon was the victim of an apartment house fire, so the A&D Product Support group got together and gave her a CARE package to replace some of the necessities which were lost in the fire — things such as: paper towels, packaged food, and toilet paper.

It was quite a week for Ursula De Vries. She celebrated her birthday, her 9th anniversary with Fairchild and became a citizen of the United States. At the last occasion, she was given a cake decorated with flags of Germany and the U.S. She is shown here with Connie Tanaka and Margie Linen.

Barbara Seay (center) and Theresa Looper, (right) were feted at a farewell party given by the A&D graveyard group when they gave up the night life to transfer to days. They will remember their last grave shift as the night the power went out, stopping all work for almost half the night. Helen Connors is shown with Theresa and Barbara.

John Schuck cut and served two beautiful cakes at the party given by the Packaging group to wish him success in his new job as Plant Manager for the San Rafael facility.

John Mack, Commercial Test & Finish Foreman, was feted at a birthday party given in his honor. Connie Webster watched as he opened his gifts.

What It Was Was.....

Football. That's what they call it, and this year for the very first time, Fairchild will have a "touch" football team competing in the Mountain View City League.

Employees can expect to be urged into scrimmage games during the noon hour as the team sharpens its skills for the rough schedule ahead. Responsible for insuring that Fairchild upholds its reputation for fielding winning teams are Coach Mike Walton and Assistant Coach Del Howard.

The season starts in early September and tryouts are right now. If you're interested in playing, call Mike Walton (#5480) or Jim McDaniel (#3691), or join the practice sessions every Thursday at 6:00 pm, Stevenson Park, near Stierlin Road in Mountain View.

R & D Bowlers, Sign Up Please

It's time to start thinking about winter bowling, and Sheila Bantillo is asking all R & D employees who think they want to bowl in the Winter League to sign up with her now so she can reserve lanes. Sheila's extension is #2538.

Scuba Divers

The Fairchild Skin Diving Club, now known as the Fairchild Sea Otters, recently elected new officers for the '68 season. Club president is **Odie Littrell**, **John Webber** is R & D vice president; **Bill Towler** is Mountain View vice president; **Fran Berger** is secretary/treasurer; and **Jim Heard** is dive master.

The first club dive was held on June 22 and 23 at Bliss State Park, off Emerald Bay at Lake Tahoe. The next meeting will be July 10th at Shakey's Pizza Parlor in Palo Alto at 7:30. Entertainment will be two underwater films, pizza and beer. Anyone interested in joining the group should call Bill Towler (#3391) or Odie Littrell (R & D #2119).

LEADWIRE SUPPLEMENT
June 1968 - No. II

published by and for the employees of Fairchild Camera and Instrument located in Palo Alto, Mountain View, and Sunnyvale, California.

Editor: Judy Horst

Including Odds & Ends

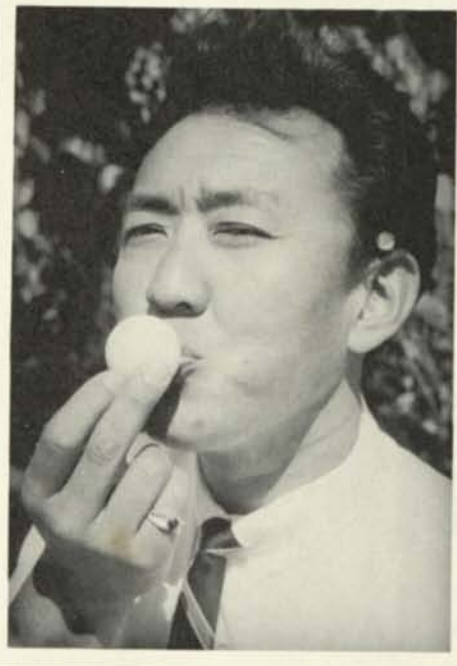

LEADWIRE NEWS SUPPLEMENT

Open Circuit

Picking a name for a newspaper is a pretty tedious thing, especially when more than 200 names are submitted. So, for this issue, anyway, it will still have to be Leadwire News Supplement . . . While San Franciscans struggle with the business of stringing an aerial through the Broadway Tunnel, several corporations, including Fairchild Semiconductor, have offered assistance in alleviating the problem, or so says the *Chronicle's* Herb Caen . . . And here's one that should have made the *Chron's* Green Sheet. **Jim Pulliam** fired a five under par 30 on the front side at Fairway Glen during Thursday evening league play. **Milt Garfield's** 32 wasn't worth much that night . . . **Jeff Wise** and **Bernie Lindgren** sure know how to show a girl a good time. After lunch, where else but to ABC Wrecking to "buy" some innertubes for the kayaks they are building. Makes you wonder about the kayaks, if not about their choice in after dinner spots . . . And speaking of wrecks, the parking lots spanning the distance between the Ellis Street building and Whisman Road complex are the scenes of many, including a five car pileup. Parking is no longer the problem, but accidents are . . . **Phyllis Carrel** of Mask Making is currently wearing Sargent's stripes on her smock; seems they are from earlier days when she was a Sargent in the Army . . . Public Relations specialist and photographer extraordinaire **Dick Steinheimer** pulled a switch. It was at a luncheon in his honor on the occasion of his taking a leave after six years with Semiconductor to "photograph the route of the First Transcontinental Railroad for the Centennial Observance, May 1969". He gave the company, in the person of his boss, **Manny Robles**, a gold watch . . .

Al Aces It!

Al Hirotsu pulled out his five iron on the 165-yard 18th hole at Pasatiempo Golf Club and hit it neatly into the cup for his first hole-in-one. Several Fairchild fore-somes were on the course that day; so the hole-in-one cost Al several pitchers of beer. Al is a QC Engineer at Mountain View.

Joan Sopko has all sorts of pleasantries awaiting her when she returns from vacation. A moldy sandwich, a dead flower, and who knows what else her A&D "friends" can think up . . . **Marge Fisher**, **Dick Fouquet's** secretary, is now Mrs. **John Nowlin** . . . Twisto boards are all the rage and they make good noontime sport, or is that afternoon time sport. Just ask **Julie Howard** and **Marge Linen** of A&D, newest addicts . . . The lights went out at A&D, and who was caught with her hair ratted and uncombed but **Ruby Evans**. It was enough to make **Joe Short's** and **Hank Mahler's** hair stand on end . . . and that's the end!

The Ultimate In Smocks

Mary Gordon is wearing the latest in Fab 3 fashion. This smock has lasted for five years, and, believe it or not, the patches are purely decorative. New foreman, **Marin Emmons** was quick to notice such a groovy smock and gave her a new one so she could retire her one-of-a-kind collector's item.

Let's keep it clean . . . Fairchild, that is! Do your share by co-operating and keeping your building neat and orderly during the work day.

Parties and Potlucks

A&D threw a baby shower for **Bob Coker**, Special Products Scheduler in honor of his new daughter, **Sandra Lynn**.

The camera was missing and once found, the film broke when they went to take a picture of **Bev De Los Santos**, A & D's "social editor," who was feted at a birthday party and luncheon recently. But she didn't escape the camera as she was caught hard at "A&D work."

Jim Corzine, A&D Product Assurance Manager, celebrated the fifth anniversary of his 29th birthday. **Chuck Self**, **Opal Kester**, and **Dick Mundy** were on hand to make it a real party.

Birthday greetings were in order for **Betty Hawkins**, A&D Spec Writer. Helping her celebrate was **Marguerita Chappell** (left).

This party was for **George Reh**, newly promoted to Inventory Control Manager.

Mary Carvalho, vacationing in Hawaii, remembered the folks back home with flower leis, and Commercial Test and Finish looked more like the Islands than a manufacturing area. In "native costume" are **Imelda Trevino**, **Margaret Jaimes**, **Kathie Harrison**, **Tatsuko Higgins**, **Gloria Simons**, **Ermelina McGowan**, **Sandy Reed**, **Erika Kurtz**, and Foreman, **John Mack**.

It was a baby shower for **Fred Brown** and his new daughter, **Heidi Joann**. Fred's a Product Support Engineer at A&D.

Bea Custer celebrated her birthday and her ninth anniversary with Fairchild on the same day. Bea is executive secretary for **John Sentous**, Director of Analog and Discrete Devices.

Cake, coffee and lovely gifts were presented to **Lucy Strang** at Instrumentation. **Lucy** and **Bill** became parents of **Christine Louise** on July 8th, shortly after the baby shower.

Answering The Challenge

There was violent reaction from some of the "old-time" Fairchild groups as a result of George Meyer's challenge of seniority by department section. Here are the results as various departments defended their honor.

¹The thirteen Spec Writers at A&D, all of whom have at one time worked for Jack Cooper, have accumulated 110 years with Fairchild for an average slightly less than 8½ years. They would like it known, however, that although they seem to be the "oldest" group, they all started working at very early ages.

²Junior Test Specialists in Applications totaled their years with the company and came up with an average of almost 7 years and 4 months. All six of them hoped for first place, but felt good about not being the "oldest".

³Meanwhile, down in Incoming Inspection, the girls were trying to figure a way to boost Carol Chrisman's scant 2 years and 3 months to 9 years. But they all decided that honesty was, indeed, the best policy, and so the seven in the department averaged 6 years 8 months.

⁴The QA girls accepted the challenge of MOS-IC Wafer Fab and rightfully so. Their average for thirteen girls is 5 years and 1 month. Trying to get them all together for a picture though is something else, so only eight are shown.

⁵Up Charleston Way — Charleston Road, that is — at Microwave, Microwave Devices answered the challenge with nine girls averaging more than 3 years and 10 months.

⁶The CLIC diffusion, class, and assembly groups at Mountain View get the award for the largest group entered. The more than 30 persons in the group, from product manager to line personnel, have a very respectable 3 years and 8 months employment average at Fairchild, not to mention outstanding know-how and morale.

Oops, Eeek, A Goof!

The following should be cut out and pasted over the picnic story erroneously labeled CIC in the last issue. It was not in fact, CIC, but DIC. If anyone dares to submit CIC picnic pictures, perhaps DIC and a DIC poster can be used to identify the CIC picnic grouping. Confused? Turn about's fair play.

DIC

Here's The Scoop

For all hourly employees: You should receive your personal copy of this summary in your next paycheck. Similar information for Salaried Non-Exempt and Exempt employees will be printed in upcoming issues.

A New Twist In Birthday Presents

Tom Sayer, Instrumentation's practical joker, received coffee and cake at his birthday party and paint and paper for his car. Only thing was that the paint and paper had been gleefully applied to

his car by the girls he works with on Bill Walker's assembly line. Seems as though Tom is always playing tricks on the girls, and just this one time, the joke was on him.

ODDS & ENDS

Ad copy should be submitted to the Leadwire Office on the forms provided for this purpose. Ad copy should be 25 words or less. Ads received by the 10th will appear in the mid-month edition; ads received by the 25th will appear in the month-end edition. Ads will appear only once; to renew ad, a new ad card must be submitted. Please use private outside phones in listings.

FOR INFORMATION:

For information on all Rec Council activities, special events, clubs, discounts, etc., contact: Fred Pieper (ext. 5131) at Mt. View; Jackie Abrew (ext. 5522) at Instrumentation; or John Gundershaug (ext. 2301) at R&D.

What A Catch!

Joel Scheinberg, Andy Wihtol, George Dowdy and son, Glen, caught these "guppies" while fishing at Lake Vassona in Los Gatos. Their surefire method was deep trolling with nightcrawlers on size 16 hooks. Like all "fish stories", this one's been stretched some, too.

Table Tennis Champs

Jim Vinzant, Ralph Rasmussen, and Dave Morin once again captured the Industrial League Table Tennis Championship. The Fairchild team, champs in 1966, had to settle for the runner-up position in 1967. The Fairchild threesome was also undefeated this year. Jim, Captain of the team and Repair and Prototype Department Manager at Fairchild Controls, and Ralph, Manufacturing Engineer Manager at Instrumentation, are shown with the trophies they received. Dave, Supervising Engineer, Instrument Development Engineering at Instrumentation, was on vacation.

LEADWIRE NEWS SUPPLEMENT

Open Circuit

Joe Malone doesn't need a phone when he calls Korea. First of all, he can never make a connection, and secondly, his loud "hellos" as he's trying to establish contact don't require any assistance from the phone company. Joe won't have to worry about getting in touch with them by phone for long, for he's heading that way as Far East Industrial Relations Manager . . . locating in Hong Kong. What a way to go! . . . As everyone knows, "farewells" to bachelorhood can become pretty wild. Well, **Chuck DeVita's** bachelor party at Dan Tompkins' apartment drew a big crowd including exotic dancers. The quiet party turned boisterous early in the morning when six remaining well-wishers decided to throw Chuck into the pool. Chuck, knowing he had to look good that day for his flight to Springfield and the wedding, didn't really want to get his hair wet; so instead, he leaped off the second-story balcony into some rough looking bushes below. Needless to say, he missed his flight, but he made the wedding "cum" broken rib and broken wrist and many cuts and bruises. Ah, bachelorhood, particularly those last hours of freedom . . . **Ted Piper** who works for Mehdi Hoodei at Aerospace and Defense has had his share of lumps and bruises lately. A beam fell and hit him while he was at work on a lazy Sunday afternoon. After a quick trip to El Camino Hospital, he was back on the job . . . Did you see the skull and crossbone patches on some of the smocks in the Whisman Road building? The girls are members of the CIA Pilot Line (Fab 4), and they're known as the Jolly Roger gang. What they're up to, no one is quite sure, but they are very, very jolly . . . **Poor Ed Gutierrez!** He missed a perfect catch at the crucial turning point in a league softball game and hasn't heard the end of it since from A&T teammates. Ed was awake until 1:30 A.M. after the game so quit the ribbing, guys. . . A future baseball player, or doctor, or engineer by the name of James Michael was born to **Chuck O'Daniel** of Management Information and his wife Karen on July 31st . . .

If There Were A Good Citizen Award.....

Kay Duree of Epoxy Shipping would get it. Kay, young mother of five children found a billfold containing \$92 in it. There was no identification in the wallet. That was quite a temptation, but Kay turned it in to the guard house. Shortly thereafter, **Dee McGowen** of Incoming Inspection checked with the guards to see if anyone had turned in her missing billfold. She was lucky, thanks to Kay.

Cast Your Vote

Yes, it's election year, and this is a special election! **Hank Breen**, Finance's Manager of General Accounting, has decided to shave his beard August 31st. The girls in his office want him to keep it. Should he or shouldn't he? Let **Jean Johns** (mail-stop 4-203) know how you vote.

Vacation Check List

- Lock and double check all windows and doors but leave the shades or curtains open. A home which is completely shut up is a good tip-off to prowlers.
- Ask a neighbor to watch your house and tell him where you can be reached in an emergency.
- Stop all deliveries – milk, newspapers, etc.

- Ask the post office to hold your mail, or have a neighbor collect it every day.
- Arrange for lawn-mowing and watering of plants in your absence.
- Be sure your car is in A-1 shape. Check tires, steering, lights, wipers, and brakes. Don't leave without a first-aid kit, flares, and a flashlight.
- Be sure to take along your glasses' prescription and other prescriptions.

Rec Council Minutes

The following is a summary of the July 24th Rec Council meeting.

Members allocated money to form a new Sailing Club and to sustain a Swing Shift Bowling League and a Skin Diving Club. They also voted to pay the sponsorship fee for six Fairchild teams participating in the SIPRA Bowling League and to sponsor a Mixed Fours Bowling League.

Fred Pieper, Rec Council Director, reported that the last canoe trip was such a success that a second is planned. He is clearing the way for bulletin boards to be placed in the new Ellis Street building. Looking to the future, Fred was authorized by the Council to reserve several rooms for Christmas dances with Rickey's Hyatt House. It is hoped that those groups without reservations and wanting to have their dances at Rickey's will contact Fred.

Insurance Talk

For all Salaried Non-Exempt employees: This insurance summary will be in your next paycheck. Similar information has already been published for Hourly employees, and a summary for Exempt personnel will be printed in an upcoming issue.

HERE'S A HANDY GUIDE—

BASIC LIFE INSURANCE

FAIRCHILD PROVIDES LIFE INSURANCE FOR ALL EMPLOYEES FREE OF CHARGE. ADDITIONAL INSURANCE IS AVAILABLE AT YOUR OPTION.

IF YOUR ANNUAL SALARY IS:	THE AMOUNT OF YOUR FREE INSURANCE IS:	AMOUNT OF ADD'L. INSURANCE IS:	& COST TO YOU
\$4000-\$4999	\$5000	\$3000	\$.30/wk
\$5000-\$5999	\$5000	\$5000	\$.50/wk
\$6000-\$6999	\$6000	\$6000	\$.60/wk
\$7000-\$7999	\$7000	\$7000	\$.70/wk
\$8000-\$8999	\$8000	\$8000	\$.80/wk
\$9000-\$9999	\$9000	\$9000	\$.90/wk

etc. (Your Life Insurance Coverage increases automatically as your salary increases)

MEDICAL INSURANCE

BASIC MEDICAL INSURANCE IS AVAILABLE TO ALL EMPLOYEES AND THEIR FAMILIES FREE OF CHARGE. MAJOR MEDICAL INSURANCE IS ALSO AVAILABLE AT YOUR OPTION, COST DEPENDING ON THE NUMBER OF MEMBERS IN THE FAMILY TO BE COVERED.

EMPLOYEE	COST IS.....	\$.19/wk
EMPLOYEE PLUS ONE.....	COST IS.....	\$.41/wk
EMPLOYEE PLUS TWO OR MORE.....	COST IS.....	\$.66/wk

LONG TERM DISABILITY INSURANCE

FAIRCHILD PROVIDES "LTD" FOR YOU FREE OF CHARGE, BASED ON A \$400 PER MONTH INCOME. IF YOU SHOULD BECOME TOTALLY DISABLED YOU WOULD RECEIVE A MONTHLY INCOME OF \$200 FOR LIFE.

HOWEVER, YOU ALSO HAVE THE OPTION TO CONTRIBUTE TO THE PLAN. IF YOU CONTRIBUTE YOUR MONTHLY DISABILITY INCOME WOULD BE EQUAL TO 1/2 YOUR CURRENT MONTHLY SALARY. APPLY THIS FORMULA TO DETERMINE YOUR COST:

$$(\text{YOUR MONTHLY SALARY} - \$400) \times .007 = \text{COST TO YOU PER MONTH}$$

(IF YOU WANT YOUR WEEKLY COST MULTIPLY THIS BY 12 AND DIVIDE BY 52. FUN!)

DEDUCTIONS FOR LIFE AND MEDICAL INSURANCE APPEAR ON YOUR PAYROLL STATEMENT AS ONE SUM UNDER "INSURANCE". DEDUCTIONS FOR LTD APPEAR SEPARATELY UNDER "LONG TERM DISABILITY". CHECK YOUR PAYROLL STATEMENT! (SOME HEAD WORK IS REQUIRED - BUT IT COULD BE A VALUABLE EXERCISE).

IF YOU HAVE ANY QUESTIONS, OR IF YOUR DEDUCTIONS ARE NOT ACCURATE, CONTACT THE GROUP INSURANCE OFFICE, EXT. 2545.

Parties and Potlucks

Birthday greetings were in order for Ruth Vennes, Spec Writer for A&D. Helping her celebrate were Millie Wilkinson (l) and Donna Stidham (r).

Bill Stansbury celebrates his birthday with a cake and a "big bottle" from members of his Production Control organization. Bill's the one third from left.

Priscilla Hickock moved from A&D to Management Information to work on a special project for Ken Pemberton's group and was feted at a luncheon by A&D friends. Shown with Priscilla (center) are Marge Linen and Barb Brannon.

Beth Vincent, formerly Beth Cordner, was the center of attraction at a shower given by friends in Applications. She and her husband, a Chief Petty Officer in the Navy, were married in Carson City, Nevada, July 27th. Beth's test specialist in Applications.

Tom Peardon, I. C. Production Control, was surprised with a baby shower for his new adopted son. Tom's wife also enjoyed the shower.

Was this ever some bridal shower! April Yoshikawa was on the receiving end of a bundle of gifts from friends in Materials Mechanical Polishing.

Packaging Picnic ?

This was hardly a picnic but a farewell party for Packaging Department members. The department was recently divided and phased into various directorate groups.

Setting Sail

Vasona Lake in Los Gatos was the scene of the Sailing Club's first outing July 28th. Dave Block, Ed Denman, Gerry Haugen, Karl and Anita Heydeck, Dale Leidorf, Bob Martinengo, Peter Neustadter, Richard Rhoades, Ted Salazar, Bob Sleeth, Al Tatano, Connie and Elmer Webster, and wives, children and dates took their first sailing lesson on that Sunday. There was softball and refreshments for members as they waited their turns for boats. If you're interested in joining the group, let one of the members know.

Sign Up For Mountain View Winter Bowling League

Winter Bowling Leagues are being formed. Sign up for the **Monday Night League**, 6:15, Cherry Bowl, Sunnyvale/Mountain View border, or **Thursday Night League**, 6:15, Ann Darling Bowl, San Jose, with Marian Oswald, extension No. 2317, or Jim Vinzant, extension No. 2284. Or mail this form to Marian Oswald at Mail Stop 6-100.

R & D Golf

Fairchild's R&D Summer Golf League is now in its second half of play at Deep Cliff Golf Course in Cupertino. More than 50 employees are competing for prizes. At mid-season Frank Grasso, Joe Ruiz, and Arnold Riemer were the first three individual prize winners. First three team prize winners were Don Henderson/Charley Steele, Don McCall/Ernie Yim, and Bob Hewitt/Frank Grasso.

Summer League play will continue through mid-September, and League President Jack Jones is planning the annual 18-hole "President's Tournament" for Sunday, September 22nd at the Deep Cliff course.

LEADWIRE NEWS SUPPLEMENT

Open Circuit

Ann Norris' son was going to receive a purple mini-bike for Christmas, but not anymore. It was stolen from her car just two hours after she purchased it. Her car was parked in the Fairchild parking lot at Mountain View. Ann's just one of several who have "lost" things from their cars. Be sure your car's locked and all valuables are hidden from view . . . On a more positive note, **Fran Trueblood** reports that Fairchild has a real-for-sure Sir Galahad wandering around helping poor damsels in distress. During the recent August 29th flood, our Sir Galahad was seen stopping his car, removing his shoes and socks, rolling up his pant legs, and offering assistance to a pretty little blonde in distress. He took her car keys and leaping puddles at a single bound waded to her car and drove it back to where she was waiting. Ah, chivalry is not dead . . . **Rudy Bartneck**, Supervisor and Design Engineer at Electronic Services recently became a U. S. citizen . . . In the vital statistics column, **Pat and Joseph Breitenbach** (he's in IC Accounting) are proud parents of their first, a girl, born August 17th . . . And, Instrumentation's **Ron Nystrom** and wife Carole have a new son, Eric David. Eric was born July 31st . . . This should confuse you. **Loretta Hayes** clipped a curious article from the paper. It stated that "Headquarters of Fairchild Camera and Instrument will be moved to Mountain View, south of Riverside." San Franciscans are justifiably up in arms, and Mountain View citizens can be hear asking, "Do you know the way to San Jose?"

Next Issue: The new name for the Leadwire News Supplement will be revealed. Yes, there really is a new name!

New Rec Director for Mountain View

Mike Gates was named to take over as Director of Fairchild's Mountain View Recreation Council. Formerly with the U.S. Navy where he was in charge of Special Services, Mike ran a variety of recreational programs and services for the 3000 men of the USS Yorktown. On

ship he was TV sports broadcaster, organized and coached the ship's football, volleyball, and fast and slo-pitch softball teams, and co-ordinated all intramural sports activities. He also served as ship-to-shore liaison for the Yorktown, arranging tours and recreational activities for the ship's crew.

A 1965 graduate of William Penn College in Iowa, Mike majored in Physical Education and minored in Psychology. He lettered in football and ran high and low hurdles. He was active in Student Council affairs and served as president of his fraternity and the Freshman class. Mike is married, and he and his wife Caryl and their five-month old son Scott just moved to the Mountain View area from Van Nuys.

Mike will be working for the Rec Council to expand its services to all Peninsula employees. For starters, he's planning an evening body mechanics class for women, another fashion show, a Vivian Phillips Art Show, a discount to all the California Seals home games, and he just negotiated a special employee discount at Marine World.

In Fall A Young Man's Fancy.....

turns to things similar to those of Springtime. And, lucky **Charlotte Pacheco** of Marketing's Discrete Devices Product Support turned her thoughts to finding out who sent her the giant-sized lollipop. Flowers and champagne followed the "candy". Through careful sleuthing Charlotte was able to find out who her secret admirer was. He works at Fairchild, and only her best friends can tell you who he is, because she's guarding her secret very well.

Parties and Potlucks

Virgil Williams celebrated his 16th wedding anniversary and the girls at A & D felt a special celebration was in order. Virgil is burn-in Technician for A & D.

A surprise baby shower was held for Martha Pena of A & D's test room.

Bill Bushard was given a surprise birthday party by swing shift girls in Commercial Test and Finish. Everyone enjoyed a Chinese Dinner to top the party off.

Naomi Valenzuela's move from Material Handler of A & D Mark and Pack to A & D Box Stock was the reason for this party.

Merle Martin of Production Control was the center of attraction at a bridal shower given by friends at Mountain View. She was married August 5th to Michael Sopko, former employee who's in Officers Candidate School and the son of A & D's Joan Sopko.

Jim Rierson presented Dick Porter, Applications Technician, with a gift at a surprise shower in Dick's honor. Dick eloped August 10th. Another Tech, Gill Lane is reported to have played cupid in this match.

Ivan McCracken and wife Marilyn were feted at a baby shower given by the Maskmaking group. A little girl came to visit the McCrackens on September 7th.

Silicon Materials gathered together to honor Carol and Jack Wilm and their son-or-daughter-to-be.

A bon-voyage cake and gift were given to Ursula DeVries of A & D who left for a month's vacation in her homeland, Germany.

Carol Arena celebrated her birthday in grand style at A & D. Carol, a Spec Writer, received \$11 in nickles, each individually wrapped.

George Meyers was the center of attention at a party celebrating his promotion from Foreman to General Foreman in the MOS-IC group.

It was Opal Kester's birthday, and Gil Gilmore, Mehdi Hoodi, and Jim Corzine were just a few of those who helped her celebrate. Opal is QA Secretary for A & D.

Bonnie Barth, Fab 4 CIC, was surprised with a bridal shower a week before her marriage August 18th.

Dave Fusaro was feted for his promotion to Foreman from Assistant Engineer in Packaging.

Chock Bailey, Foreman of Packaging Production, transferred to I.C. Assembly, and his girls honored him at a "good-bye" party.

N/A

Your life insurance coverage increases automatically with respective increases in salary.

MEDICAL INSURANCE

BASIC MEDICAL insurance is available to all employees and their families free of charge. MAJOR MEDICAL insurance is also available at your option, cost depending on the number of members in the family to be covered.

EMPLOYEE.....cost is semi-monthly....\$.41
 Employee Plus Onecost is semi-monthly.... .89
 Employee Plus Two or more..cost is semi-monthly... 1.43

LONG TERM DISABILITY INSURANCE

Fairchild provides "LTD" for you free of charge, based on a \$400 per month income. If you should become totally disabled you would receive a monthly income of \$200 for life.

However you also have the option to contribute to the plan. If you contribute your monthly disability income would be equal to 1/2 your current monthly salary. Apply this formula to determine your cost:

$$\frac{(\text{YOUR MONTHLY SALARY} - \$400)}{2} \times .007 = \text{COST TO YOU PER PAY PERIOD}$$

Deductions for life and medical insurance appear on your payroll statement as one sum under "Insurance". Deductions for LTD appear separately under "Long Term Disability". CHECK YOUR PAYROLL STATEMENT! (Some headwork is required - but it could be a valuable exercise).

IF YOU HAVE ANY QUESTIONS, OR IF YOUR DEDUCTIONS ARE NOT ACCURATE, CONTACT THE GROUP INSURANCE OFFICE, EXT. 2843.

300 Safe Days

This should be some sort of all-time Fairchild record! The people shown here, Tom Yagi's Plating group, have worked more than 300 days without a single accident and are celebrating just that. As Dick Fouquet, Central Services Manager and head of the Executive Safety Committee commented, "Not only is 300 safe days a remarkable record, but the nature of this group's work makes this an even more remarkable accomplishment."

Let Me Out!

Dave Lemberger of Applications thought he would have some fun with Bob West, so he disguised Bob's tool box as a roll of tape. In return, Bob, with a little help from friends, fenced Dave into his working area by placing a huge storage cabinet in the doorway. Dave is shown trying to find a way out. They claim it was all in the name of research.

ODDS & ENDS

Ad copy should be submitted to the Leadwire Office on the forms provided for this purpose. Ad copy should be 25 words or less. Ads received by the 10th will appear in the mid-month edition; ads received by the 25th will appear in the month-end edition. Ads will appear only once; to renew ad, a new ad card must be submitted. Please use private outside phones in listings.

CAR, clean good running. For equity in '68 VW Automatic. Assume \$61.65 mo. payments. Red, low mileage, many extras. Susan Beatty, 739-1317.

Falcons Wind Up Season

Fairchild's Falcons had to settle for second place in the Regional Softball Tournament, dashing all hopes of winning a National and World Championship this year. However, the team, runner-up in last year's Nationals, is lending Ray Phillips to the Aurora team, last year's World Champs, in their quest of another World title. Aurora was allowed to pick up two players for the tournament, and Ray was chosen to be one of them. As for next year, there are still those elusive National and World titles to capture, and Manager Pat Campagna hopes to snag them both.

Let's keep it clean . . . Fairchild, that is!
Do your share by co-operating and keeping your building neat and orderly during the work day.

LEADWIRE SUPPLEMENT

September 1968 - No. 1

published by and for the employees of Fairchild Camera and Instrument located in Palo Alto, Mountain View, and Sunnyvale, California.

Editor: Judy Horst

Reporters: Judy Curiel, Marge Killian, Wes Cox, Lois Eagleston, Nellie Covington, Ginger Tygret, Keith Thomson, Iantha Kochsiek, John Walsh, Edna Loucks, Missy Singer, Bonnie Webber, Donna Hudson, Janet Jones, Terri Mead, Andrienne Juliano, Janet Lumley, Pat Campagna, Beverly De Los Santos, Shirley Becker, Fran Trueblood, Sheila Bantillo, Betty Smith and Cathy Thomas.

Rec Council News

Mike Gates' phone number is 3332 if you are calling from Instrumentation or R&D. Use 5131 if you are calling from the Mountain View building.

CLUBS & MEETINGS:

Tennis Club - Playing Wednesday evenings at 6:15 at Mt. View High School. To participate on the tennis ladder, you must challenge a player who has already established a position on the ladder.

Bridge Club - Meets every 2nd and 4th Tuesday night in the new cafeteria. For information call Liz Frisz at R&D, 2384.

Flying Club - For beginners or experienced pilots. Club owns 2 planes. Flight cost is \$7 per hour in the Cessna 150 and \$3 per hour in the new Cessna 175. Lessons are free.

Soccer - Anyone interested in joining the Soccer Club, contact Mike on 3332.

Sports Car Club - Anyone interested in forming a Sports Car Club, contact Mike on 3332. Will plan rallies and gymkhanas.

Rod & Gun Club - Anyone interested in joining the club, contact Mike on 3332.

Political Science Club - Anyone interested in forming a Political Science Club, contact Mike on 3332.

Sailing Club - Anyone interested in joining a Sailing Club, contact Mike on 3332.

Skindiving Club - Anyone interested in joining contact Bill Towler, Fairchild Drive Building, extension 5224.

Note: If you would be interested in organizing or participating in a club not listed here, contact Mike on 3332.

SPECIAL DISCOUNTS:

Free Discount Cards - Available for auto tires, Frontier Village, Disneyland, Sea World, etc.

Dinner Club Booklets - Buy one dinner and get one free. Includes 55 different restaurants. Regular price \$6.95, employee price \$4.50.

Disneyland Weekend - Special package trip includes round trip flight, 2 nights lodging at Disneyland Hotel, 3 days at Disneyland with all ride tickets. Priced from \$56. Good any weekend.

Reno Trip Package - Weekend discount trips to Reno. Good any time. For details, contact Mike on 3332.

Free Trip to Fallon Nugget Casino - Friday, September 27. Complimentary round-trip air transportation and limousine service. Free drinks and \$2 play. Leave from San Jose airport 7:00 P.M., return 7:00 A.M. Contact Mike Gates, 5131.

Permanent Employee Discount Card for Manufacturer's Outlet Stores, 344 California Avenue, Palo Alto and 1131 Chestnut Street, Menlo Park. Ladies apparel, brand names, at half price.

TICKETS AVAILABLE:

Baseball - Tickets can be obtained for all Giants and Oakland A's ballgames. Regular prices - no discount.

FOR INFORMATION:

For information on all Rec Council activities, special events, clubs, discounts, etc. contact: Mike Gates (ext. 3332) at Mt. View; Jackie Abrew (ext. 5522) at Instrumentation; or Madelyn Petersen (ext. 2301) at R&D.

Open Circuit

What a pleasant surprise to find signs mysteriously posted in the Fairchild Drive building saying, "Smile, it's much more pleasant" and "Smile, or they may think you are made of ice". The cafeteria's even going along with this underground campaign. Menu boards also are urging people to "let a smile be your umbrella". . . Slicing once had a softball trophy won from QA at the Materials Picnic this year. Undisclosed sources report that the now missing trophy is very much alive and living somewhere else in Materials. . . **Bill Bell, Bob Coker** and **Bud Smith** all buckled up for safety on their way back to A & D after lunch. As they jumped out of the car, Bill found he was permanently locked into the car — his super safety belt wouldn't unbuckle! He would probably still be there, but someone was upset he had been gone longer than a half hour, and so the two fellows showed him how the new-fangled safety belt worked. . . **Lt. Reeves**, of the Security Guard Force, and his son walked many miles Sunday, October 13th, when they distributed United Fund reminders and door-hangers throughout the Mountain View complex. Their gift to the United Fund was fifteen hours of work. . . November 23rd signals the start of another marathon, well, it's actually just a mile run — the Fairchild Turkey Trot to be held at 1:00 p.m. at Mountain View High School. A field of about 25 of Fairchild's finest athletes will huff and puff around the oval, and they desperately need fans to cheer them on and pick them up when it's all over. . . **Ken Hayton**, of the Calibration Lab, has lots of free children's tickets and \$1.50 adult tickets he'd like to distribute for the Toys for Tots post-season benefit football jamboree. The games will feature the San Jose Hornets and Stingers in battles against the Venice Bulldogs and Blues. It's all for a great cause, Toys for Tots, also sponsored by the U. S. Marines. Ken's extensions are #2259 and #5044. . . Unless you have an hour or so, don't ask Specialty Product's **Robert Orrick** how his new son is. Normally a very quiet man, he's quite talkative about Ronald Sheldon Orrick, whom he and his wife adopted October 24th. . . **Paul Pronos**, Traffic Manager at Mountain View, and his wife just had their fifth girl. Like they say, that's enough for a basketball

team. . . **Bob Schall's** also a brand new father, a girl born October 14th. . . **Connie Evans** and **David Lemberger**, both Fairchild employees (she a Junior Tester and he a mechanical designer at Mountain View), are planning a December 14th wedding. . . **Marie Moreno**, Die Attacher for Hybrids Manufacturing, will become Mrs. Ernie Namos on December 21st. . . And, **Pat Bonham**, Distribution Services, is just back from his honeymoon. . . And this final story of a Good Samaritan, **Pat Ledesma** of Slicing. On her way to work on a Monday morning, Pat saw a car stalled along the side of the Bayshore Freeway. She thought she recognized the driver as her Foreman, **Frank Paone**. After making all the tricky moves on and off the freeway to get back to the stalled car, she arrived to find the car was gone. She continued on her way to work, but she arrived fifteen minutes late. The man in distress was, indeed, Frank; he'd stopped to fix his accelerator. He thanked her for her concern and then docked her fifteen minutes for being late to work. But good triumphed, for in the next breath, he assured her he was only kidding and was very appreciative of her efforts. . . So, you see, a smile will go a long way.

Outstanding!

A & D Transistor Spec Writers have turned in some very outstanding work in past months, reducing specification rejection for errors by 40%. **Bill Bleak**, QA, presented a certificate to **Bill Fokelman** and his Spec Writers, **Carol Arena**, **Connie Tanaka**, **Virginia Barret**, **Jean McNeal**, and **Ursela DeVries**. The women were also guests at a luncheon in their honor.

New Art Show

The huge, almost abstract paintings of **Les Lambson** have taken over the walls of the Mountain View facility and met with a resounding voice of approval from employees.

Currently on the faculty of the College of Creative Arts at Northern Arizona University, Professor Lambson has also taught art at California Western University, Utah State University, Brigham Young University, and West Valley College. Hundreds of his paintings are owned by people in the Bay Area as well as throughout the United States and abroad. He has paintings in the Sir Winston Churchill collection, the Edmund Fischer Collection, and the Andy Williams Collection.

Believing that art should be priced within the reach of everyone, his prices are structured from \$55 to \$265 and are available on a time payment plan. Buyers may reach his wife at 854-6563 in Menlo Park.

Skiing?!? Insurance?!?

Sure . . . !!!

Surgical Benefits for:

1. Dislocation of hip, arm, knee, ankle, shoulder, collar bone, jaw, etc.
2. Fracture of thigh, back, leg, knee, hand, foot, ankle, nose, etc.

Plus X-Ray and Lab Expenses and Emergency Room Hospital Benefits.

Consult your Group Insurance Office for details if you should, unfortunately, have to.

Of Mice and Women

— a joint effort by IC Mask Design.

Once upon a time, a tiny brown mouse ventured forth in an attempt at peaceful co-existence with the ten ladies toiling diligently in Mask Design. Their work was somewhat disturbed when Archie (that's what we shall call him) made his first grand appearance. He quickly disappeared, as would anyone, when greeted with shrieks and general panic.

Ensuing days produced mutilated candy, maimed chewing gum, and shredded packets of diet breakfast. A definite preference was shown for peppermints.

As Archie made his daily leaps out of various desk drawers, a strange spell was coming over all of us: a certain affection for Archie was developing.

Dave Elrod's gallant offer to set traps and capture Archie was met with those same shrieks and general panic uttered earlier.

It seems Archie has found a home.

Digital Microcircuits Engineering Picnic

And the The Goblins Will Get You.....

The Halloween spirit prevailed; even at work, as various Mountain View groups celebrated in costume or with potlucks

Commercial Test & Finish

DIC Assembly and Final Seal Swing Shift

DIC Die Fab Halloween Party

Parties & Potlucks

Harry Chadwick, Foreman, Incoming Inspection at Mountain View, was feted with a cake and all the trimmings on his birthday.

Tom Baluch not only was promoted to General Foreman of the A & D test room, but received lots of gifts at a potluck to celebrate it.

Virginia Barret and Kay Latier shared a cake and opened gifts on their birthdays at A & D. Virginia's a Clerk for Transistor Product Support at A & D, and Kay is a Spec Writer.

Marge Linen's birthday wasn't forgotten either. Marge works as a Clerk Typist for A & D.

Marie Beddick of Quality Control at Instrumentation was surprised by a baby shower given by Systems Sub-Assembly and Cabling girls. The only thing was that the baby was a pedigree blonde Pomeranian known as "Me Too". It really is a dog's life!

Lee Reiman, Expeditor for A & D, celebrated his birthday, a la A & D style.

Sara Hernandez of Mask Making was feted at a baby shower. On November 7th she gave birth to her first child, a boy.

Donna Hughes of Materials was kept busy opening gifts and cutting cake at her birthday party.

Even RCA Source Inspectors get into the act at A & D. The Product Support team at A & D got together to celebrate Jack Carrick's birthday.

Happy Birthday Glen Frater, Engineer for A & D.

Archie Marles was more interested in cutting the cake than posing for pictures. It was a welcoming party given for him by the Commercial Test and Finish Class Area. Archie comes to Mountain View from South Portland where he was a Production Supervisor in Final Test. What a way to get in good with your new boss!

Doug Dixon, Silicon Materials Engineer, was given a surprise baby shower by both Day and Swing shift Epi girls. It was a boy!

Vic Baker was given a huge box of "No-Doz" and lots of well-wishes at a party held for him recently. Vic's transferring from days to graveyard at A & D.

Liz Elstad, Spec Writer at A & D, celebrated her birthday in grand style.

Al Frugletti, Power Transistor Product Support, was off to the Philadelphia sales office where he will be Sales Engineer in the Consumer market.

Joan Swearingen, SLIC Class Area, was showered with gifts at a baby shower given her by friends.

Jim Soldani received a watch from A & D friends in honor of his promotion to Customer Liaison Engineer.

Connie Webster displays the cakes she and her husband, **Elmer**, received on their departure to Shiprock. Connie had worked for **Jim Stangl**, Commercial Test and Finish, and Elmer was Materials Control Indirect Materials Supervisor before moving to Shiprock as Production Control Supervisor.

Power Production surprised **Shirley Neal** two months early with a baby shower. They weren't taking any chances on her finding out about the party.

Frank Durand who transferred from Discrete Reliability to IC Reliability received this fishing rod and congratulations from his people.

Trudy Cevallos was feted at a baby shower given by Production Control.

A triple-header was given by DIC as **Dorothy Stewart**, QC, celebrated a belated birthday; **Rosemary Delgado** was honored at a baby shower; and **Katie Garrett**, Die Fab Material Handler, celebrated a birthday.

Marlene Souza celebrated her "21st" and the Materials group was on hand to help her.

ODDS & ENDS

Ad copy should be submitted to the Leadwire Office on the forms provided for this purpose. Ad copy should be 25 words or less. Ads received by the 10th will appear in the mid-month edition; ads received by the 25th will appear in the month-end edition. Ads will appear only once; to renew ad, a new ad card must be submitted. Please use private outside phones in listings.

YOU SAY IT'S HAPPENED TO YOU BEFORE?

To get a busy signal on a PBX line for 6 tries, then get an open line - and mis-dial the number.

To be doing a rush copying job at 4:25 - and the machine runs out of paper.

To be in the lunch line - and the person ahead takes the *last* piece of chocolate cream pie.

To run to the mail room with an important letter - just in time to see the U.S. Mail Carrier walk out the front door.

To arrive 10 minutes late and find a parking space at the end of the first row - and come face-to-face with the rear of one of those #*#! small foreign cars.

Rec Council News

CLUBS & MEETINGS:

Banjo Group - Enthusiasts should contact Bill Quinn on 2800.

Rock Hound Club - All interested contact Robert Hogan on 5331.

Bridge Club - Meets every 2nd and 4th Tuesday night in the new cafeteria. For information call Liz Frisz at R&D, 2384.

Flying Club - For beginners or experienced pilots. Club owns 2 planes. Flight cost is \$9 per hour in the Cessna 150 and \$3 per hour in the new Cessna 175. Instruction is free. Although this is not a Fairchild sponsored club, many Fairchild employees participate in this activity.

Sailing Club - Anyone interested in joining a sailing club contact Jerry Haugen on ext. 4205.

Skindiving Club - Anyone interested in joining contact Bill Towler, Fairchild Drive Building, ext. 5224.

Ski Club - All employees interested in joining this year's ski club call Mike Gates, ext. 3332 or 5131.

Tape Club - All tape recording enthusiasts interested in setting up a tape trade club, call Mike Gates at 3332. This would be for the purpose of recording other people's tapes for your own use, and it will help you establish a good tape library at much less cost.

Physical Fitness - All women interested in a "slim and trim" class call Mike Gates at 3332.

Christmas Choir - How about a mixed Christmas choir group to spread a little cheer throughout the community? Dust off the old high school song book, oil up the rusty tonsils, and join the fun with the rest of us. Call Mike Gates at 3332.

Camper Club - Even though winter's coming on, the Camper Club is still on the move. Trips are scheduled throughout the year; a Tahoe trip is coming up. Anyone interested in joining the group should contact Ed Tappen at Mountain View.

Note: If you would be interested in organizing or participating in a club not listed here, contact Mike on 3332.

SPECIAL DISCOUNTS:

Free discount cards available for auto tires and parts, Frontier Village, Disneyland, Marine World, Manufacturers' outlet stores, and tobacco.

Live Theatre Buffs - The "Gaslighter" of San Jose is offering a special discount to all Fairchild personnel. For those who enjoy live entertainment this is a must! Good on Friday and Saturday only at \$1.75. For reservations call 225-1232.
