GENERAL  ELECTRIC

Schenectady, New York

Dear Conferee:

In prior years, Island guests were presented with such items as tie clasps, silver keys, and jackets. Our aim this year again has been to provide a "remembrance" which would prove commemorative and useful.

Along with "Progress Is Our Most Important Product", we are continually confronted with the fact that "communications is a most important problem". With the idea of improving communications by improving our recognition of each other, we have put together this informal conference "yearbook".

Since General Electric is such a dynamic organization, any book of this type can be fully accurate only at one instant in time, in this case May 21, 1956. The same vigorous pace has provided us with nearly 100 percent of the pictures for more than 3,000 men, but many pictures apparently were obtained "on the run". We received everything from formal portraits to badge pictures and backyard snapshots, but in spite of the lack of uniformity, we trust you will agree that this volume meets its intended objective - to serve as a useful reminder of the 1956 Conference and to help us all improve our acquaintanceship.

The 1956 Conference is an intensive business study of a most pertinent theme, "Planning for Profits". You will find yourself as an active participant in contributing your knowledge to the Company's future well-being. Also it is hoped that you will avail yourself of the many recreational aspects of Association Island, some of which are 1956 additions to the wealth of sports previously available.

Above all, we hope you find your three-day visit to be a useful, stimulating and memorable experience.

1956 CONFERENCE PLANNING FOR PROFITS

A picture
story of a
typical 1956
conference held
on Association
Island

TIME: 7:15 A.M. The hosts greet the new arrivals — nearly 300 strong. Total for the summer conferences, more than 3,200.

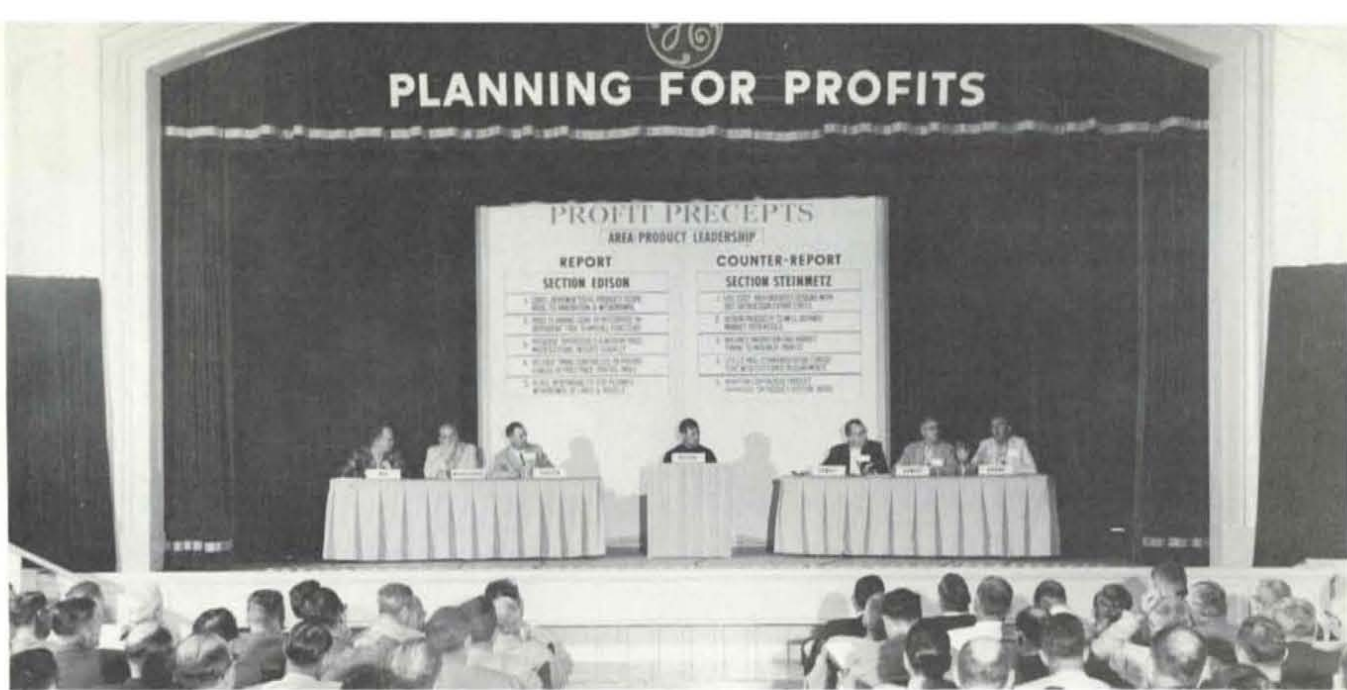

HEART OF THE CONFERENCE is the Section Tent row. Six sections of 48 men or more devote their group effort to developing precepts of "Planning for Profits."

UNIT DISCUSSIONS in each tent concentrate on individual topics. All six areas are covered by the six units in each tent.

BOILING DOWN PRECEPTS: On the second day, each unit refines its conclusions. Section Representatives draw for specific topics, and the Section turns its total effort toward two areas of discussion.

PANEL DISCUSSION sums up Sections' findings — Section Representatives give their reports and counter-reports while Division General Manager acts as Moderator.

BEHIND THE SCENES at Town Hall: Doug Crossman, Doc Cook, and Lloyd Nickerson cue a script for one of the seven cases given at each conference.

A DIFFERENT TYPE BRIEFING: Two eager Conferees receive last minute instructions from Jeff Childs and Recreation Director Bill Troy.

AND THEY'RE OFF for the Island's newest sport — Outboard Motorboat racing.

THE FINER POINTS OF SAILING are explained by Hank Dunbar prior to a race. Both afternoons two races are run off for the sixteen sailing dinghys.

TRAP SHOOTING is one of the Island's oldest and most popular sports. Novice and expert alike are ably coached by veteran A. J. "Mac" MacDowell.

LIGHT, GAY ENTERTAINMENT sparks the Black Cattle social hours. Talented youngsters, led by theatrical experts put on five productions during each Conference.

ENTERTAINMENT DIRECTOR Howard Jarratt (center), Bill Sumner, and Aida Alvarez polish a musical number.

STEAKS ON THE FIRE: Chef Bayard does a land-office business at the ever-popular outdoor grill.

DINNER UNDER THE ELM, weather permitting, provides a relaxed atmosphere. Some girls are serving proud fathers since all waitresses, and housekeepers too, are relatives of GE men.

BACKBONE OF THE ISLAND: George Kovacs, Facilities Manager, shows the powerhouse setup to Leslie Moore, Hotel Manager.

ISLAND STAFF reviews each Conference operation. Left to right: Ray Bonta, Pete Converse, Bob Hicks, Bob Dirks, and Hersh Cross.

PROGRAM ADVISORY COUNCIL holds critique on the first Conference program. The verdict — “it looks good.” Left to right: Bo Vea, Bill Oswalt, Hersh Cross, Mac McCullough, (section representative), Ray Bonta, Ralph Spang, Guy Shafer, and Bob Hawley.
