Subject: #8523-U.S. Acquisition Support for Services and Supplies

From FRED YOCHUM, MSO1, 223-9606

As with the case with many organizations during these days of significant change within Digital, the Services & Supplies Acquisition group has gone through considerable change in personnel this past week in the areas of Communications, Complementary Human Resources, Property & Site Services, and Manufacturing Engineering.

It is our intent to cause no interruption in service to our clients during this period of change. Towards that end we are publishing below a new realignment of buyers, and commodity managers within each COE, along with their respective phone numbers and buyer codes.

Should you have any other questions please feel free to contact the appropriate COE manager:

| Property & Site Services      | Mike Schiappa | 223-9393 |
|-------------------------------|---------------|----------|
| Complementary Human Resources | Dick Svirsky  | 223-3756 |
| Communications                | John McArdle  | 223-9896 |
| Travel & Fleet                | Ron Guertin   | 223-3337 |
| Manufacturing Engineering     | Dan Malinski  | 566-3459 |

Again, our intent is to make these transitions as seamless as we possible can. Thanks in advance for your continued support through these changes.

Regards,

Fred Yochum

Subject: RE: UPDATED GOALS - SEE ATTACHED

Andrea,

If you REALLY mean what you say, then you will have to print without our updated goals. We have a day-long revision session scheduled for tomorrow and will probably be incorporating changes on Friday.

Here is a list of my reports who should receive a copy of the total package:

Walter Bonin MLO1-4/P14 Charles Bradshaw UPO2-4 Ron Chestna MLO1-4/P14 Bud Dill MKO2-1/A09 Ken Kanady AET1-1/3

Dave Weliver AET1-1/3

Thanks, Don

Subject: EIS GOALS

As was discussed at the quarterly, the final EIS goals need to be sent out on September 14th, which means I will need them no later than the 12th.

Also, if you want your direct reports to receive a copy, please send me their names and mail stops and they will be distributed to them directly from this office.

Thank you

Andrea

FY91 Corporate EIS Goals Russ Gullotti August 7, 1990

# ENTERPRISE INTEGRATION SERVICES

#### FY91 GOALS

VISION: Become the #1 World Class Systems Integrator

MISSION: EIS provides our customers, and the company itself, with the highest quality solutions--including Systems Integration, consulting, software, hardware, education, information services and third-party equipment--on a global basis. As the company's systems integrator, we combine these elements into systems tailored specifically customers. In doing so, EIS contributes to the revenue, profit and productive growth of Digital.

#### DUE DATE

SUPPORT REQUIRED

METRIC

#### STATUS

1 - Customer Satisfaction -Take the actions to insure that Digital is seen as the highest quality, most "customer aware" and most "customer satisfying" systems integrator in the industry. Our Professional Services will receive the highest marks for customer satisfaction of all our competitors.

a) Propose a revised systems integration survey model based on customer interviews at key phases of the program. Q2

b) Train sales/program management on methods to present "one company" to our customers

METRIC

STATUS

2 - Financial - EIS will make dramatic improvements in the profitability of our Systems Integration and Professional Services operations while insuring that all of the resources in our organization work to achieve Digital's overall financial goals.

a) Meet <u>Systems Integration</u> Q1-Q4 profit goal of 6% for FY91 and 10% for FY92. NOR target is \$1.4B for FY91.

b) Professional Services

1) Meet Professional Software Q1-Q4 Services goal of \$642M NOR and 5.3% FCM

2) Meet Computer Special Q1-Q4 Systems goal of \$555M NOR and 35.6% FCM. David Creed Qtrly report Geo. Mgrs.

Sharon Keillor Qtrly report Geo. Mgrs.

# ENGINEERING EIS FY91 GOALS Sharon Keillor

EIS/E

GOAL

# DUE DATE

01

SUPPORT NEEDED

METRIC

# I. ORGANIZATIONAL EXCELLENCE

GOAL #1 - Develop and implement, as a backdrop for the achievement of all other goals, a worldwide environment of Organizational Excellence. This will be an extension of the CSS Customer Satisfaction Program and will map to Digital's Total Quality Management Program. Organizational Excellence will be defined by sustained excellence in the performance of Customer Satisfaction, Employee Satisfaction, Partner Satisfaction and Shareholder Satisfaction.

- a) Take a leadership role in implementing Digital's Total Quality Management Program as part of Organizational Excellence. This effort will address which of the five initiatives contained in TQM (Voice of the Customer, Benchmarking, Six Sigma, Cycle Time) will be showcased within Organizational Excellence.
- b) Develop in the EIS/EMC, through an educational approach to Organizational Excellence, a shared vision of the future, a common set of objectives, and an impassioned commitment to the attainment of excellence.

# PSS EIS FY91 GOALS

David Creed

#### PSS BUSINESS UNIT

#### FY91 GOALS

VISION: Become the #1 World Class provider of customer application projects and consulting services.

MISSION: PSS is the EIS Line of Business that provides Business & Technical Consulting and Custom Application Projects to Digital's customers. As such, it is the group that works with our customers to apply our products and services to their business problems; and thus serve as a leading component of Digital's evolution to a major systems integrator. There are four components of the PSS Business:

- Technical Consulting Assist Digital customers in the use of products and/or technologies in development of their applications environment.
- Large Projects Provide division/enterprise-wide solutions to large, complex mission critical customer problems requiring significant resources/investment.
- Small/Medium Projects Supply point application solutions under a variety of T&Cs to meet important customer requirements and ensure customer satisfaction.
- Management Consulting Aid customers in identifying/setting business vision, strategies and objectives relating to process, technologies and human factors.

#### Goal #1 - Customer Satisfaction

Take actions which continue to differentiate Digital as a leader in providing quality education and communications to employees and customers using a worldwide quality system to assess the results. (Ensure added participation in other field surveys to enhance the image of Digital as a world class systems integrator).

Achieve a worldwide average of 90%+ for courses offered in FY91.

Provide quarterly reporting by ABU and PBU functions in the company to insure better business planning, integration, and understanding of the role training plays to improve the competency of employees and customers as a way to sell more systems/solutions for Digital.

# FINANCE EIS FY91 GOALS Carol Reid

## EIS FINANCE

## FY91 KEY STRATEGIES

Provide leadership to achieve the business and financial goals of the EIS businesses in support of Digital's objectives.

1

- II. Develop the financial framework, processes, and models needed to manage EIS in its new business unit structure within the Digital business unit model.
- III. Develop the financial architecture needed to support the Systems Integration Business.
- IV. Provide the environment for finance employees to achieve professional excellence, grow, and derive satisfaction from their careers.

#### GOAL

#### Goal #1 EIS Organization

We will create a highly productive, well managed organization where our employees are empowered and have clear roles and responsibilities. EIS will be one organization comprised of multiple businesses. Skills use will be maximized for profit, customer satisfaction and growth of our employees. We will work in a collaborative environment that maximizes diversity.

a. Coordinate and/or drive key actions needed to implement new business units in an integrated EIS organization.

b. Sponsor/develop HR proposals needed to support an integrated organization, i.e. stock allocation, integrated career ladders, salary planning in US, headcount tracking, Rewards & Recognition, etc. (Tie this to "a"). FY91

tools for planning and designing of the enterprise.

- B. Ensure that all three geographies teach the 04 common curriculum for account managers on Digital's approach to S.I.
- C. Ensure that all three geographies teach the Q4 common curriculum for basic project management skills.
- D. Ensure that all three geographies teach the 04 common curriculum for program management skills and the following number of Program Managers are trained: U.S. 150, Europe 150, GIA 100.
- E. Develop a curriculum for consulting 04 methods, techniques, and tools
- F. Develop and pilot an intermediate program Q3 management training course that will provide skills to prepare PMII's to take on PMIII level work.
- G. Develop a detail implementation plan for the Q1 above
- V. Supporting Goals
  - A. Program Management job structure and evaluation.
    - 1. Support the Human Resources and geography efforts towards a common definition of PM1, PM2, PM3, and PM4 jobs.
    - 2. Support the Human Resources and geography efforts towards a common measurement and evaluation program.
  - B. Ensure success of Project Accounting System (P.A.S.)
    - 1. Support completion of specification of requirements Q1
    - 2. Support implementation of U.S. pilot Q1

03

03

- 3. Support implementation of European pilot
- 4. Support implementation of GIA pilot
- 5. Evaluate pilots and develop plan for Q4 improvement of quality and timeliness of information.

#### C. Support CASE Program

- 1. Launch the CASE program jointly with EIS/E.
- 2. Ensure that CASE methodology connects 04 with consulting (planning and design) and program management methodology.
- 3. Ensure that CASE tools are connected Q4 with the other tools in the S.I. portfolio.
- VI. Customer Services Collaboration Program
  - A. Work with customer services team towards common MIT for Systems Integration and Support Integration for the following programs:
    - 1. P.M. Methods (see goal II above)
    - 2. P.M. Tools (see goals III A above)
    - 3. S.I. Training (see goal IV above)
    - 4. Business Practices Documentation
      - Define delivery vehicle
