INTRODUCTION TO THE YELLOW BOOK

The FY89 Engineering Beige Book summarizes strategy, project plans and organization of groups responsible for product development and development support. It represents the engineering commitment to the rest of the company. Subsequent updates and changes to product oriented projects are reported in the engineering Yellow books which are published three times a year. For the September 1989 Yellow Book, we are only publishing the PRODUCT DELIVERABLE/ANNOUNCEMENT CALENDAR and ORGANIZATION/PRODUCT MANAGEMENT CHARTS.

Distribution and Confidentiality. The distribution of this book is to persons who have been sponsored by their Vice President. The security of the document will be maintained if the recipients of this document make it available on loan, only to those persons needing this information and who in turn are committed to maintain its company confidential nature.

Who to Contact. When looking for project information and status, contact the following:

PROJECT CONTACT	LOCATION OF CONTACT NAME	KINDS OF FUNCTIONS PERFORMED
Product Management	To find the name of the Product Manager of an individual project refer to the PRODUCT DELIVERABLE/ANNOUNCEMENT CALENDAR.	. Project Coordination . Business Plans . Interface to DEC functions other than sales . Phase review process

Engineering Product Planning. When the right contact cannot be found, an individual needing additional help can refer to the Engineering Product Planning Office, Bill Koteff (DTN 223-3123), Claudette Hunt (223-5867), Eli Glazer (DTN 223-4434) or Margaret Bourgeois (DTN 223-3927).
