Most minék nyomjam meg az F2-t, ha csak

Have you ever noticed
that a cat will be quite content
inside
until
you shut the door
he immediately
feels trapped
afraid

So you open the door

afraid
that the door might close
so he simply stands

not risking security
not risking freedom

CONT. from #aejws to TGI(F
Don't read this first TGI(F, got to the next message.
So anyways, just what kind of professional dirver are you?
What do you do now? Just to put your mind at ease, we don't
weigh 350lbs, not even if you weighed us together. So if
you want to do this wild, compulsive encounter, just name
the place and time. If you need our number, say so. We can
leave a description or something.
I admire your disregard for physical looks. I can't say the
same about myself, perhaps I have not yet matured in this
area.
Have you ever read or seen the play Equus by Peter Schaffer?
True, it's about a boy, a horse, and his God, but it's
wildly erotic. Since you began recommending books, and my
friend lauded her favorite author I thought I should give it
a shot too.

bored and have absolutely nothing else to do right now and I love to write. We both would love to write a novel together someday about everything we have experienced--physically, emotionally, and socially. Writing is so wonderful--you don't have to please anyone but yourself (unless you have to write dreary essays to impress some sexually frustrated asshole or bitch in school). I hate writing stupid essays in which you have to prove a point. I don't understand why one can't simply state things as they see them, regardless of any POINT. They say it is to develop a higher sense of logic, reason, and order--how droll. Creativity somehow gets shuffled out in this wonderful system of ours. Have you gone to school? You sound rather well read and intelligent. This may sound silly, but one of the things I fear the most is leaving school and having to deal with stupid people on a day-to-day basis. I just know I will turn mad!

I REFUSE TO PARTICIPATE IN INTERVENTIONIST WARS Part II
by U.S. Marine Corporal Erik Larsen

On April 21, 1986 I joined the Marine Corps to defend the
American dream, which first attracted my parents to this
country in 1958. I emerged from boot camp 13 months
later, a fully indoctrinated fighting machine willing to go
anywhere in the world to defend the ideas and freedoms
stated in the Constitution of the United States of America.

(am now a Lance Corporal in the U.S. Marine Corps Reserve
and a radar mechanic for the HAWK missile system. I am
stationed in Hayward, California at the Fourth Light

Wing.

I first became aware of the realities of US policies through student activists at Chabot Community College in California. They introduced me to alternative newspapers and books and exposed me to the writings and speeches of Archbishop Oscar Romero of El Salvador. I learned about a Central American history of U.S.-sponsored exploitive policies motivated by corporate and personal greed. 70,000 Salvadorans have been killed over the last ten years as a result of U.S. Policies. I realized I could no longer blindly follow orders from my Commander-in-Chief but that my actions were ultimately accountable to a higher authority -- namely God.

My deeply rooted moral convictions have led me to declare my objection to the escalation of tensions and seemingly inevitable war in the Middle East.

It sickens me to hear Mr. BUSH announce that 40,000 of my fellow reservists and 80,000 of my active duty brothers and sisters are going to wage war in the Middle East to protect "our American lifestyle." Oil imports could be cut in half if a sound energy policy focusing on renewable resources and conservation was in effect. Our oil consuming Western lifestyle is destroying the earth, and it is our wasteful society that has brought the world to the brink of a preventable war.

The only settlement to this crisis is a complete withdrawal of all forces from the area and the start of honest negotiations. I hope to God that it won't take a row of body bags to finally wake people up. I hope that my statement today and my refusal to support this war may in some way help end U.S. intervention in the Middle East.

AN OLD MEMORY

The women wrung their hands
and wept as they watched
their harvest of buck-wheat, maize and barley
go up in flames.

The children danced to the faint buzzing
of the fire-flies,
while a short distance away,
the invading army marched
to the tune of Deutschland Uber Alles--
coming closer and closer,
to capture yet another Polish village.

It was late summer of 1915,
and I was one of the dancing children.

There is a drawing teacher at the California College of Arts
and Crafts, Eleanor Dickinson, who has a glass covered
coffin (complete with a real skeleton!) as a coffee table at
her house. I think she lives in San Francisco, but you
could probably find her at CCAC.

ABOUT HIM. CARING IS A CONNECTEDNESS, A WAY OF FINDING OR
CREATING MEANING BY THE CHOICES WE MAKE, THE THINGS WE DO,
AND THE PEOPLE WE ARE. HIS LIFE HAS MEANING FOR THEE BECAUSE
OF SHARED EXPERIENCES, MEMORIES, ETC. (THOUGH SOME WOULD
ARGUE THAT SUCH THINGS CANNOT BE SHARED, I WOULD SAY THAT
EXPERIENCES CAN BE SHARED, BUT THEIR MEANINGS CANNOT.
MEANINGFULNESS CAN BE SHARED, BUT NOT SPECIFIC MEANINGS...)
(I HAVE NO DOUBT THAT HIS LIFE ALSO GAINED SOME MEASURE OF
MEANING FOR HIMSELF THROUGH HIS RELATIONSHIP TO THEE. AND
SINCE DEATH IS A PART OF LIFE, A PERSON'S LIFE AND DEATH
DRAW MEANING FROM ONE ANOTHER.

God how I resent being compelled to become computer

Island paradise where people were warm and freindly as was
the weather. I wonder what lesson I can learn from this
miserably cold and wet and dirty old city. Is there anyone
out there who would like to escape this funky town? Kalani?
You have a Hawaiian name, are you from Hawaii? Would you
like to go with me? Would you like to meet me for coffee
somewhere? I'm probly too old for you anyway. Berekely where
"Old Money" donates freely to the symphony while the
casualties lie "dying" in the streets, the rich get richer
the poor get poorer and the "middle" class just seems to
disappear.

that this WAR is just about money. STICTLY\$\$\$?? What
happened to public opion in BERKELEY. Was it thrown out the
window in the 60's with civil rights, wars, drugs, rock

firstly, i've noticed on several occasions when letters and

This computer system is entirely too hard to operate...
I have entered several messages on it and once you put your
Quarter in, the damn thing eats it, and you never see the
message again... note how they say "category you would like
your message entered under" well once you punch it in, you'll
never see it again except for the very first few moments when
the screen says that this message was entered into it....
that is the only time that you ever see your message again.

Okay CM, here is my story. I welcome some free advice in dealing with this situation. A guy comes to my door last night (I live in S. Berkeley) around 8pm. I've seen him around, mostly across the street. He tells me his grandmother who lives across the street asked him to come over and borrow some money because her car has broken down on the freeway nearby and the cheap tow company won't take a check, only cash. My husband and I ask him some questions. He knows all of the people we know in the house, knows the make and color of the car, etc. He says the grandma will write us a check in an hour when she comes home. So, we give him the money and guess what? It's all lies and we don't see him again. The next day I go to the house and the grandmother tells me he's not her kid but a "friend" of the family, and no she didn't

Hi Andrew,

I added that discussion to the Anarchy forum. The reason
you could not was because the Caps lock was on on the
keyboard you were typing at. So, when you typed in the
password, it wasn't precisely correct so it wouldn't take.

Sorry, that this message is silly but just wanted to try it out. Don't any other heads leave messages? Hope all of you are safe from the Fire on the Mountain.

About three thirty on Tuesday, October 15th, Evelyn at the SHNDC. When I walked in, the screen was full of flashing dots, now it is a placid skill with gold letters etched across. Ah, the vagaries of man and machine. Anyhow, I did the high level technical problem-solving for which I am so justly famous around the office (I pushed the reset button) and the system rebooted and returned to normal. See you guys on Thursday.

From cmoper Wed Oct 16 11:06 PDT 1991

Today I noticed that the cursor wraps around at the edge. In other words, after return if left arrow is pressed, the cursor is on the right edge of the screen. Perhaps this could be changed or will help explain lost cursor problems if you didn't know.

Hiya, Nancy, NBSC was up, contented as a little clam. I'm on my way to Milt's on Hearst. -- Evelyn. 10/21/91

Still at NBSC, a comment by a passerby about an outdated
teaser message -- I explained about the fire etc. . . but
these NBSC participants don't miss a trick.

From cmopex Mon Oct 21 07:00 PDT 1991

Hiya, Nancy -- we're back up at Milt's two. As with the in-house terminals the problem was the power strip. In other words, the red light on the strip was on, but the system wasn't on. (Monitor was on.) I simply unplugged and replugged each of the plugs on the strip and here I am coming as if there had never been an interruption. I took \$2.50 out of the coin cup. They also need additional brochures

here. See you soon! -- Evelyn.

From cmoper Mon Oct 21 08:31 PDT 1991

Hi, Nancy, at SBNDG, listening to some hair-raising fire stories. But the CM terminal here was down and is now up. Again -- the power strip story. See you soon, Evelyn.

From cmoper Mon Oct 21 08:45 PDT 1991

Hi, Nancy, Evelyn back at Milt's 2 -- where I refilled the brochures. See you soon.

From cmoper Mon Oct 21 11:55 PDT 1991

Hi, Nancy about 3:00 -- the ecology center terminal is now up and running -- same problem as with SBNDG & Milt's true. I presume this is the last one to go back up. See you soon. Evelyn.

SCREEN DATA PRESENTATION TOO DIM AT THIS READ POST!

From cmoper Thu Oct 24 01:33 PDT 1991

I SUGGEST TO YOU THAT WE RISE ABOVE THE IGNORANCE AND DECAY TO LIVE LIFE AS IT SHOULD BE.

From cmoper Fri Oct 25 10:46 PDT 1991

It is not clear how one can write a message in a forum when no messages are already posted. The ADD option discussed in the CM help menu about writing messages does not seem to exist. I wanted to see if I could post a message in the Musicians Exchange in the Musicians Wanted index. The only message I get is that there are no messages. There does not appear to be a way to add messages to an area without one already.

What am I missing?

=Richard

From cmoper Fri Oct 25 10:50 PDT 1991

I get it now. I was supposed to pick F1 options to write a message in a forum without any messages. That sure wasn't obvious.

Incidentally, it would be a lot easier to use if there was some way to pick Finished other than move the cursor uparrow until it was highlighted. Perhaps the Tab key would highlight only the options with the <> like <FINISHED>, <PRIOR PAGE>, <NEXT PAGE>. That would make things easier.

=Richard

From cmoper Fri Oct 25 17:26 PDT 1991

I was considering the possibility of helping out in the Musicians Forum after reading Mr. Smoketoomuch's message. However, I'm reluctant for a couple of reasons. First, it would probably take more time than I could provide. The one to two hours every other week seems way to low an estimate. Second, I find the forums difficult to understand with all

the hodgepodge of (indexes) not lined up or without much meaning or organization. They seem to be randomly placed on the screen. I'm unclear what type of interface a manager has that a regular user doesn't. In other words, what tools (electronic options) does a forum manager have.

It doesn't appear that messages can be printed out without a print screen. That means you can't review them off-line. Perhaps that isn't too bad.

Combining Rock music with the others is going to present problems later on. Prodigy just split their Rock music arts section into two: A-K and L-Z subjects because of the huge number of messages.

Perhaps you might consider organizing the forums like they do on CompuServe, GEnie, or Prodigy. They make more sense to me than CM's approach.

My only other suggestion is that the navigation of the system isn't all that easy. Prodigy has its (Next) also working with the PgDn key and (Back) with the PgUp key. The only way I know how to write a reply is to hold the UpArrow until the Write option is highlighted. Prodigy has a (Reply) option. I don't think the current CM system menu's is terribly user friendly. It's certainly different. You could have used the function keys to make navigation easier. I like the concept of a community-based system. The quarter was a good idea in order to keep total garbage from overriding the system. The success of "the experiment" hinges on the intuitive use of the system. That means its menu system.

You could also consider having something like CompuServe's "Top" menu option which jumps to the top. That's easier than holding down the F2 key until you're all backed up.

Sorry for the long dissertation. I don't know whether it's possible to receive a reply or not. There doesn't appear to be any notification of messages or replies pending system. Anyway, you can identify me from my userid and password. I look forward to your reply however I might get it.

=Richard

From cmoper Fri Oct 25 17:29 PDT 1991

How could you allow a topic called (Dial-A-Nazi) in the Revolution section under the Homeless forum or topic?

That's a real lack of taste EVEN when there were no messages. The forum administrator should be reprimanded.

=Richard

Hi Folks! I have logged in from home for my first session on C.M. in my own office. I encountered absolutely no problems as I wandered through several subjects and left a message. My only request would be to be able to capture and/or print things I read so I don't have to write all that stuff down as I go. One other minor problem is that I can't see any cursor as I type this, which makes it a real challenge to make corrections. Is that a problem in my setup or yours? Thanks for your help.

From omopex Sun Oct 27 13:20 PST 1991

I think peoples park shouldve been kept a park not a volleyball court. Why couldnt UC BERKELEY just leave the park alone. They think because they did this the homelessness is going to end in BERKELEY. Well they are WRONG! UC OUT OF THE PARK!

Every one wants to know where the BCCI billions got to.

"(if you wonder where the billions went,

You have check where CIA sent!"

-Check Savimbi in Mozambique.(or any "underground" war hotspots in Africa)

_Check Pol Pot et al in Cambodia(certainly viewed by the CIA as a proxy war with Vietnam)

_Check the so called "new funding" for the Contras in Nicaragua

-Check illegal arms shipments to South Africa

_Check funding for the ARENA party in El Salvador

I submit to you that in some cases third world investors in BCCI(A) unknowingly,paid to have the own governments subverted, suborned, bought, and even brought down!
