

NO. 340 10 DIETZGEN GRAPH PAPER
10 X 10 PER INCH
EUGENE DIETZGEN CO
MADE IN U.S.A.

Approx. Internal Computing Performance (times 704)

The High Speed Computer Performance "Arena"

Vertical lines denote program compatibility within families of computers
A trend to the right represents commercial, a trend to the left represents military.

The Market "note" for 7000-X where
 X_1 : strictly Prog. Compatible
 X_2 : Partly Prog. Compatible
 X_3 : Complete new Design

(Lockheed)

Machine "Families"

computers

(Commercial) HGK Dec 20, '58

question { does it go to 0 }
question { does it go to 0 }

Starting = 604 μs
 Total cycle = 30.6 μs
 A-U Time = 9.2 μs
 I-AU Time =
 Branch Time = 9.0 μs

$$\frac{9.2}{30.6} = 17.5$$

Scale 2.0 μs

Single memory 7000-X
