FILE MEMO

SUBJECT: Air Conditioning Requirements for Stretch

There has been considerable discussion of the relative air conditioning requirements for Stretch and a 704 or 709. The following reflect current estimates of the requirements for Stretch.

		<u>Heat Dissipation</u>	<u>Coding Requirements</u>
704	32K storage, 6 tapes	104KVA	29.5 tons*
Stretch	(Los Alamos System)	110KVA	31.2 tons*

*Assuming a power factor of 1.
