SUBJECT: Meeting with Mr. William Orchard-Hayes

Mr. William Orchard-Hayes, Director of Computing Services for CEIR, wishes to present to us an Air Force requirement involving extremely large order matrices. This will involve a regular seminar lecture in the Research Auditorium at 10 a.m. Wednesday, January 22nd, followed by a luncheon in Conference Room B 12 noon. After the luncheon, we have requested that Mr. Orchard-Hayes go into as much detail as possible with us on the problems which he will discuss in generality during the morning lecture. The luncheon and afternoon session will be attended only by the group listed on this memo, by Mr. Orchard-Hayes, Mr. S. I. Cass, and myself. If there is anyone else you feel should attend, please inform me as soon as possible; we can accommodate a maximum of twelve people.
